Department of Agriculture

STATEWIDE EVENT!

To be held in every Department of Labor Office

This is an exciting first time statewide event that we hope will provide information on the many job opportunities within the national forests in Idaho. A job with the Forest Service provides benefits to the public and the forest that is challenging, stimulating and rewarding so we hope anyone interested in learning more will visit.

Jobs available are predominantly seasonal, mainly during the summer.

Opportunities include:

Fire management positions, recreation such as trail building or campground maintenance, biologist technician positions in wildlife and fisheries, and engineering technician jobs.

Forest Service Personnel will be at each location to answer any further questions.

The agency is striving to provide opportunities to local workers and encourages veterans, and diversity individuals to attend at any time during the afternoon. Seasonal jobs are a stepping stone for many in the agency to permanent jobs.
