

**2006 Forest Plan
Huron-Manistee National Forests
Administrative Change #6
June 6, 2013**

Correction to the 2006 Forest Plan, Figure D-1, Appendix D, page D-2. Allowable Sale Quantity (ASQ) volume contrasted with Long-term Sustained Yield (LTSY).

Administrative changes are defined at 36 CFR 219.13(c) in the 2012 Planning Rule, which became the effective rule for National Forest System planning on May 9, 2012. An administrative change is any change to a plan that is not a plan amendment or plan revision.

Administrative changes may include:

1. Corrections of clerical errors to any part of the plan, including plan components,
2. Changes to other content in the plan other than plan components, or
3. Conformance of the plan to new statutory or regulatory requirements.

Administrative Correction #6 replaces Figure D-1 on page D-2, Appendix D of the 2006 Forest Plan. The action corrects typographical errors in the projected long-term sustained yield (LTSY).

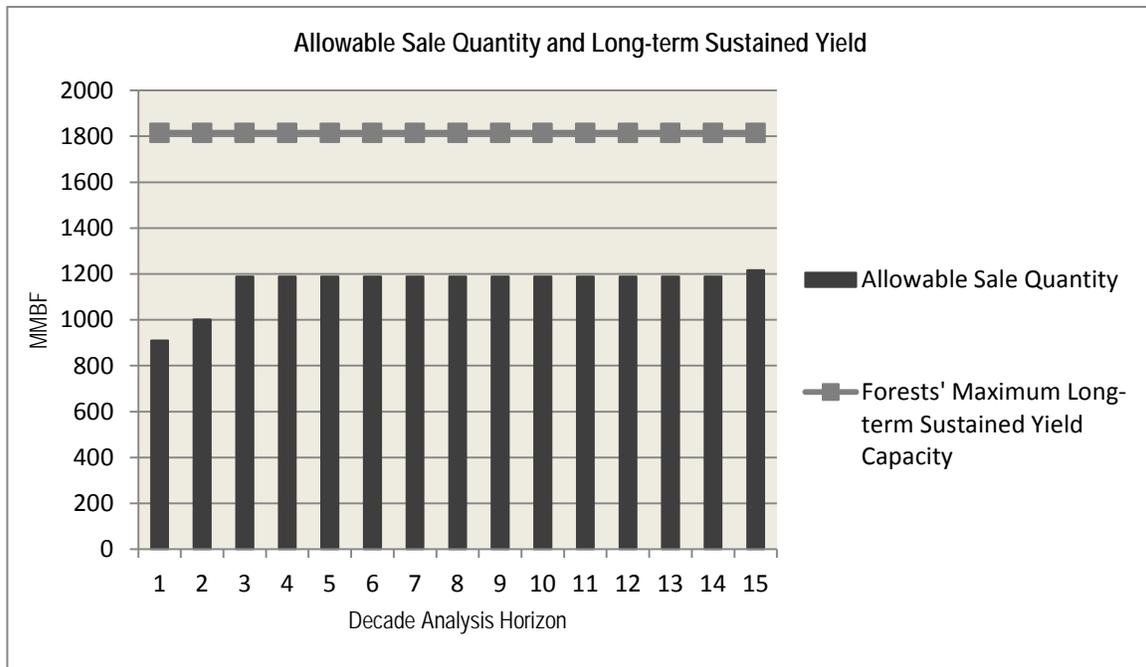

ORIGINAL – Figure D-1, containing incorrect long-term sustained yield figures.

Figure D-1. Maximum Allowable Sale Quantity and Long-Term Sustained Yield Capacity.

CORRECTED – Figure D-1, containing correct long-term sustained yield figures.

Figure D-1. Allowable Sale Quantity and Long-Term Sustained Yield Capacity.
