2014 Early Alert: Seasonal Wildlife Jobs

The Salmon-Challis National Forest Wildlife Program is currently looking to fill positions to be part of a range/wildlife habitat assessment team on sage grouse. Individuals will be required to perform field work in remote areas, hiking to distant locations, establishing plots for collection of field data, and performing data analysis. Employment will last from approximately late May through September. Positions will be stationed at one of the Salmon Challis Ranger District Offices and work schedules will be 40 hours/week. This notification is being circulated to inform prospective applicants of this opportunity.

Housing: Government Quarters may or may not be available for this position. Employees seeking rental can expect a range from \$500 - \$800/month.

Position Duties

- Navigate to remote areas using topographic and/or GIS maps.
- Locate and establish transects in study areas via GPS navigation techniques.
- Identify range plant and wildlife species.
- Collect and record vegetative data in upland and riparian settings using GPS units.
- Knowledge and familiarity with data dictionaries, Microsoft Word and Microsoft Excel is preferred.
- Perform data analysis and prepare written reports of results.
- Must have valid State Drivers License.
- Operate four-wheel drive vehicles in rough terrain.

How do I Apply?

This position will be advertised on the USAJOBS website Applicants can go to www.usajobs.gov once the advertisement is finalized and apply.
