Carmen, Attached is the spreadsheet of the data. I believe the counts on the service days are correct. However, Joanie has been in charge of the AutoSum feature. At this time, we show that with projected reservations we will use a total of 1647 John Muir days. That would use 217 of the days we borrowed from the pool.

I would probably like to transfer the Evans Trip leaving from Bishop Creek to Mt. Whitney service days.

As of yesterday, there appeared to be many hundreds of days in the overnight pool. We wish to access that to cover more reservations.

I will get the written wilderness permits to the White Mtn Ranger District today.

Thank you.

**Attachments:** 2013 service day's Sept 13, 2013 submitted for Rock Creek and Mt. Whitney Pack Trains.xls

Carmen---attached are the tally information. I have updated the day ride sheet as of today..a few more two hour rides. I will drop off the wilderness permits at the White Mtn Ranger District in an hour or so.

I did not include service days for the Native American Trip. Lou said they didn't have to use our commercial service days. They didn't make reservations until July and I did not have the ability to update all the the service days, projections and etc. and add it to the request for more service days. Last time you showed us using those days as part of our allocation. As long as we can borrow days for the use I don't have a problem. We have always provided all services to the Mono Nation at no charge.

You may want to add the Evans trip to the Rock Creek service days and take from the Mt. Whitney days. Originally, I planned the trip as a Rock Creek trip and then the wilderness permit was pulled out as a Mt. Whitney Trip.

As you go through the tallies you may see corrections that add to our service day count and we would want to add that to our borrowed overnight service days. There are a couple of resupplies that you may want to calculate differently.

I have not gone through the wilderness permit office to borrow additional days from our count. As you mentioned there are 810 overnight days left...I don't know if that included the days I requested in August.

There may be a few wilderness permits in our file that you didn't get for the summer. I can go through and find them. I did not submit the September wilderness permits with the tally and will include them with the September information. And, may send them over earlier than the October 15th deadline.

Thank you.

Craig

Carmen---Here is the final tally with all of the September information added to the Tally sheets. Very few entries since the stuff sent in September. I will put the hard copies of the wilderness permits in the mail since all the Forest Service offices are closed. If you get this information prior to the end of the furlough....hope you are not getting too restless.

Thank you.
