

FOREST PLAN AMENDMENT #3

Amendment #3 adds a new forestwide standard and the associated map to the *Land and Resource Management Plan for the Daniel Boone National Forest* (Forest Plan), April 2004. These additions are enumerated below, including applicable section headings and page numbers. Changes appear as **bold** text, except where text was already bold in headers or tables.

FORESTWIDE STANDARDS, RECREATION (Forest Plan, p. 2-22)

DB-REC-8 Allow no horses, pack animals¹ or other livestock in the area indicated on Figure G-19 except on trails designated for such use or as specifically permitted and on Forest Service system roads as shown on the forest's Motor Vehicle Use Map:

- 1) **Cave Run Lake vicinity (see Figure G-19 in Appendix G)**

¹ "Service Animals" are exempt from this standard. As of September 2010, the Civil Rights Division of the U.S. Department of Justice has redefined a "service animal" for the purpose of the Americans with Disabilities Act: "*Service animal* means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability." (28 CFR 35.104)
