

Heather  
*Phyllodoce empetrifomis*

Star tulip  
*Calochortus subalpinus*

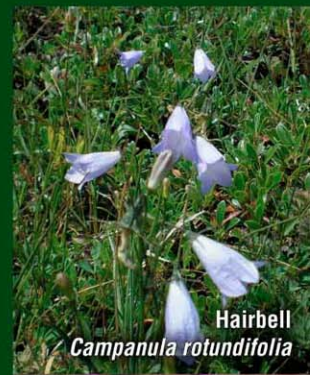

Tiger lily  
*Lilium columbianum*

# Earth, Wind & Fire have brought wildflowers to Silver Star

Wildflowers grow here at a lower elevation than normal because of the rocky subsoil, the wind and repeated fires. Of the more than 100 varieties of wildflowers and flowering shrubs that grow here, these are some you are most likely to see.

Grey's loveage  
*Ligusticum grayi*

Hairbell  
*Campanula rotundifolia*

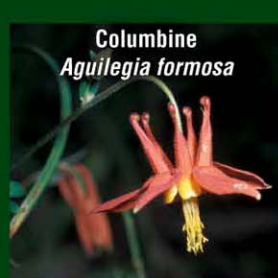

All photos by Roger Anderson, Except as noted

Bear grass  
*Xerophyllum tenax*

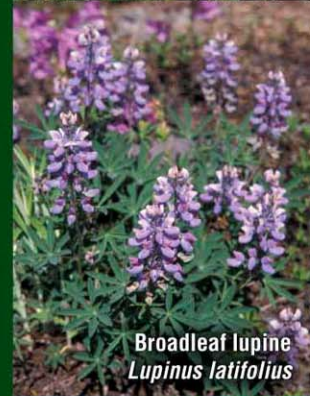

Western bistort  
*Polygonum bistortoides*

Columbine  
*Aquilegia formosa*
