A separate Plan of Operations is attached addressing the items below Yes No.

1. Location Description and Maps: Give the general land description of the lands involved, limited to Meridian, Township, Range, and Section(s) or metes and bounds as appropriate. You must also submit an electronic map (in PDF) with a minimum scale of one-half inch per mile showing the general area and project location. We recommend a PDF version of a 7 1/2-minute USGS quadrangle or the scale commonly used in the area. In addition, you must submit GIS data in a locally projected Universal Transverse Mercator (UTM) North American Datum (NAD) 1983 ESRI shape file or geodatabase format (e.g., UTM zone 13N NAD83). For seismic operations, your data must include clearly attributed locations of operations and facilities, including staging areas, access routes to and within the project area, source and receiver point locations and lines, shot point locations, surface ownership, and any Federal lands under lease. You must identify the number of acres within the project area by Federal surface (by agency), state surface, fee surface, and other, and the estimated acreage of surface disturbance.

2. Do you hold any Federal leases within the project area? Yes No (If yes, indicate location and lease numbers on an attached map.) There is no fee for operations conducted on your Federal lease (outside of Alaska).

3. If you are proposing seismic exploration, how many miles of source line (2-D), or acres (3-D) (to the nearest 10 acres) of survey are on:

a. Your Federal Lease _____ b. Other Federal lands _____

4. When do you expect to start exploration? _____ How long will the project last? _____ days.

Describe any of your critical timeframes associated with the proposed project, such as equipment or contractor availability.

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212 make it a crime for any person knowingly and willfully to make to any Department or agency of the United States any false, fictitious, or fraudulent statements or representations as to any matter within its jurisdiction.

Description and Type of Operations (*check all that apply*);

a. Survey Type: 2-D 3-D Gravity/Magnetic Other (explain):

Describe the survey type:

b. Survey Method: Shot hole Vibroseis Other (explain):

For shot holes:

What type and amount of explosives per source will you use?

What shot point pattern and spacing will you use?

What will be the shot hole depth?

What type of receivers (wired/wireless) will you use and how will they be transported and placed?

What will be the receiver and source spacing (in feet) and spacing between the source and receiver (in feet)?

Describe the survey method:

c. Seismic Source and Transport Methods: Vibroseis Trucks Pick-up Truck Drill Buggy ATV Helicopter Backpack

Describe your seismic source and transportation plans, including types of vehicles, numbers of vehicles for each aspect of the project, routes, and methods you will use to access the project area:

d. Operating Procedures: Describe your operating procedures, including how you will minimize surface impacts and ensure compliance with the Terms and Conditions of this NOI. Describe staging areas and support facilities you need, such as helispots, temporary camps, equipment storage; fuel storage; powder magazines; construction of roads or trails; proposed plugging procedures for shot holes; waste management and spill prevention; reclamation; and general clean-up procedures.

Terms and Conditions

1. The Bureau of Land Management (BLM) or Forest Service (FS) (Agency) must approve any Surface disturbing activities in addition to those approved in the NOI, such as route changes, placement of magazines, towing with a tractor, blading, dozing, snow removal, and vegetation removal. I must notify the Agency in writing of any changes in the original proposal and have Agency approval in writing for the changes before proceeding with them. Stacking sourcepoints to avoid sensitive resources or areas does not require prior Agency approval.
2. This NOI expires on _____, unless the Agency extends it in writing before that date.
3. I understand that this NOI does not grant any exclusive right to the described lands for geophysical exploration, or other purposes. The land area described above is at all times subject to any other lawful uses by the United States, its lessees, permittees, licensees, and assigns.
4. I must notify the Agency at least _____ days, but no more than _____ days, prior to initiating the project and entering upon the public lands.
5. In the field, each seismic crew must have with it a copy of the approved NOI and its terms and conditions.
6. The Agency may suspend or terminate this NOI if there is a violation of any of its conditions.
7. I must suspend operations when the operations may unnecessarily damage the surface, such as when rutting would occur due to wet soil conditions.
8. I must indemnify the United States for any liability for damage to life or property resulting from the occupancy or use of public lands under the NOI.
9. I must take all reasonable precautions to prevent and must suppress fires. The Agency may specify in writing the fire prevention and firefighting equipment I need. At my expense, I must extinguish all fires set or caused as a result of operations under this NOI and must report all fires to the Agency.
