

APPENDIX H

ROUTE TABLES

The following tables list information for Alternatives 0, 1, 3, 4, and 5, including route number, route name, route type (road or trail), and seasonal open period. Based on public comments, the seasonal open periods have been simplified in the FEIS. "Trails open to all vehicles greater than 50 inches" in the DEIS has been modified to "Trails open to OHV" in the FEIS.

R = ROAD

TRAILS:

ALL = OPEN TO VEHICLES GREATER THAN 50 INCHES

ATV = OPEN TO VEHICLES LESS THAN 50 INCHES

2WL = OPEN TO TWO-WHEELED VEHICLES ONLY

Seasonal Open Period Codes for Roads and Trails displayed in the DEIS:

examples:

R1 = Road open year round.

R5 = Seasonal road open July 1 – Sep 30.

ALL1 = Trail open to vehicles greater than 50 inches, ATVs, and two-wheeled vehicles year round.

ATV2 = Trail open to ATVs and two-wheeled vehicles seasonally, Friday before Memorial Day – Aug 25.

2WL9 = Trail open to two-wheeled vehicles seasonally, Jun 16 - Nov 30.

Seasonal Open Period Codes for Roads and Trails displayed in the FEIS have been simplified and are "cross-walked" to the DEIS use codes in the following table.

Seasonal Open Periods

Following are the seasonal open periods for roads and motorized trails for Alternative 1 (current Travel Plans) and the action alternatives (Alternatives 2-4) analyzed in the DEIS. There is no code for the number 10. This is an error. An X in a column in the table below indicates the season of use is designated for a road or motorized trail either on current Travel Plans or in the alternatives in the DEIS.

Public comments stated the seasonal open periods were too complicated and the Forest should simplify the seasons even more. Idaho Fish and Game and Idaho Parks and Recreation, together, have recommended seasonal open periods A, B, and C below (for Alternative 5, the Preferred Alternative).

Season Code A provides a balance between bow-hunters and motorized recreationists. This season of use is being modified in the FEIS to have roads open Memorial Day weekend through Labor Day weekend. Memorial Day represents the first holiday of the summer season. The earliest date the Friday before Memorial Day occurs is May 22. Memorial Day is the last Monday in May. Labor Day is another major holiday weekend for many motorized recreationists. It represents the last major holiday of the summer season. Relatively few bow-hunters actually hunt during Labor Day weekend. September 7 is the latest date on which Labor Day (the first Monday in September) can occur. The combination of numerous visitors and animals not being in the rut makes bow hunting

¹ Current travel plans display seasonal route closures; however, these were translated into seasonal open periods for consistency with the Travel Rule and proposed action alternatives.

more difficult during this time period. Some hunters might use this opportunity to haul gear into remote hunt camps, but once seasonal travel regulations are understood by the general public, this issue should be resolved.

Season Code B provides a seasonal motorized recreation experience that protects calving and fawning habitat as well as providing a general hunting non-motorized opportunity outside of a wilderness setting. This seasonal restriction would also help protect the trail tread by keeping motorized uses off of routes during wet season periods.

Season Code C provides a seasonal motorized recreation experience that protects calving and fawning habitat, while providing a general hunting motorized opportunity. With ATV participants more than twice as likely to hunt as non-ATV participants, providing ATV hunt opportunities on the SCNF is important. This seasonal code also prevents motorized vehicles operating during the winter period and would protect wintering wildlife species.

Season Code D is a new open period for the Preferred Alternative and provides seasonal motorized use opportunities made in a recent NEPA decision in cooperation with Lemhi County. This season of use applies to travel management decisions made for the Salmon-Moose Creek Fuels Reduction Project on approximately 37,000 acres west of Salmon, Idaho.

Season Code E allows a winter ski opportunity on FR #40069 (Buster Lake Road). The route is open from April 1 through December 14.
