The Western Wide Energy Corridor Record of Decision was signed by the Secretary of Agriculture on January 14, 2009, adding a new energy corridor per section 368 of the Energy Policy Act of 2005. This amendment is effective 30 days following the Decision – February 14, 2009.

This amendment is a non-significant amendment to the Uinta Forest Plan. The corridor crosses five Forest Plan management areas. This amendment would update direction for utility corridors. Any surface disturbing activities would require additional environmental analysis.
