**This is a Plan for managing the Modoc National Forest  
for the next ten to fifteen years, after which it must be revised.  
If the need arises, it will be revised or amended earlier.**

This proposed Land and Resource Management Plan was developed for the Modoc National Forest. Detailed information regarding the Plan is available from:

**Forest Supervisor**

## Organization of the Plan

The Forest Plan is composed of five chapters:

- |                  |   |
|------------------|---|
| <b>Chapter 1</b> | <b>Introduction</b> - is an introduction to the planning process; describes the purpose and need; relates the Forest Plan to other plans; and describes the location of the Modoc National Forest.  |
| <b>Chapter 2</b> | <b>Public Issues and Management Concerns</b> - states the issues and concerns established at the outset of the planning process, and explains how they were resolved.   |
| <b>Chapter 3</b> | <b>Summary of the Analysis of the Management Situation</b> - summarizes the Analysis of the Management Situation (AMS) and the EIS <i>Affected Environment</i> section (Chapter 3); and addresses each resource in terms of demand, supply potential, uses, and the need and opportunity for management change. The full text of the AMS is part of the planning records, and is available for review in the Supervisor's Office in Alturas, CA.                    |
| <b>Chapter 4</b> | <b>Management Direction</b> - introduces the concept of management direction; defines Forest goals and objectives; outlines Forest-wide standards and guidelines; describes the desired future condition for the Forest; gives commodity outputs and costs for the planning period; and presents management prescriptions, standards and guidelines, and target outputs for each management area. A description and map of each management area accompany the text. |
| <b>Chapter 5</b> | <b>Monitoring and Evaluation Requirements</b> - describes the monitoring system, and sets requirements for monitoring and evaluating both the implementation and the results of the Plan.   |
