

COMMERCIAL MATSUTAKE MUSHROOM

Sale Area Map Central Coast Ranger District Siuslaw National Forest

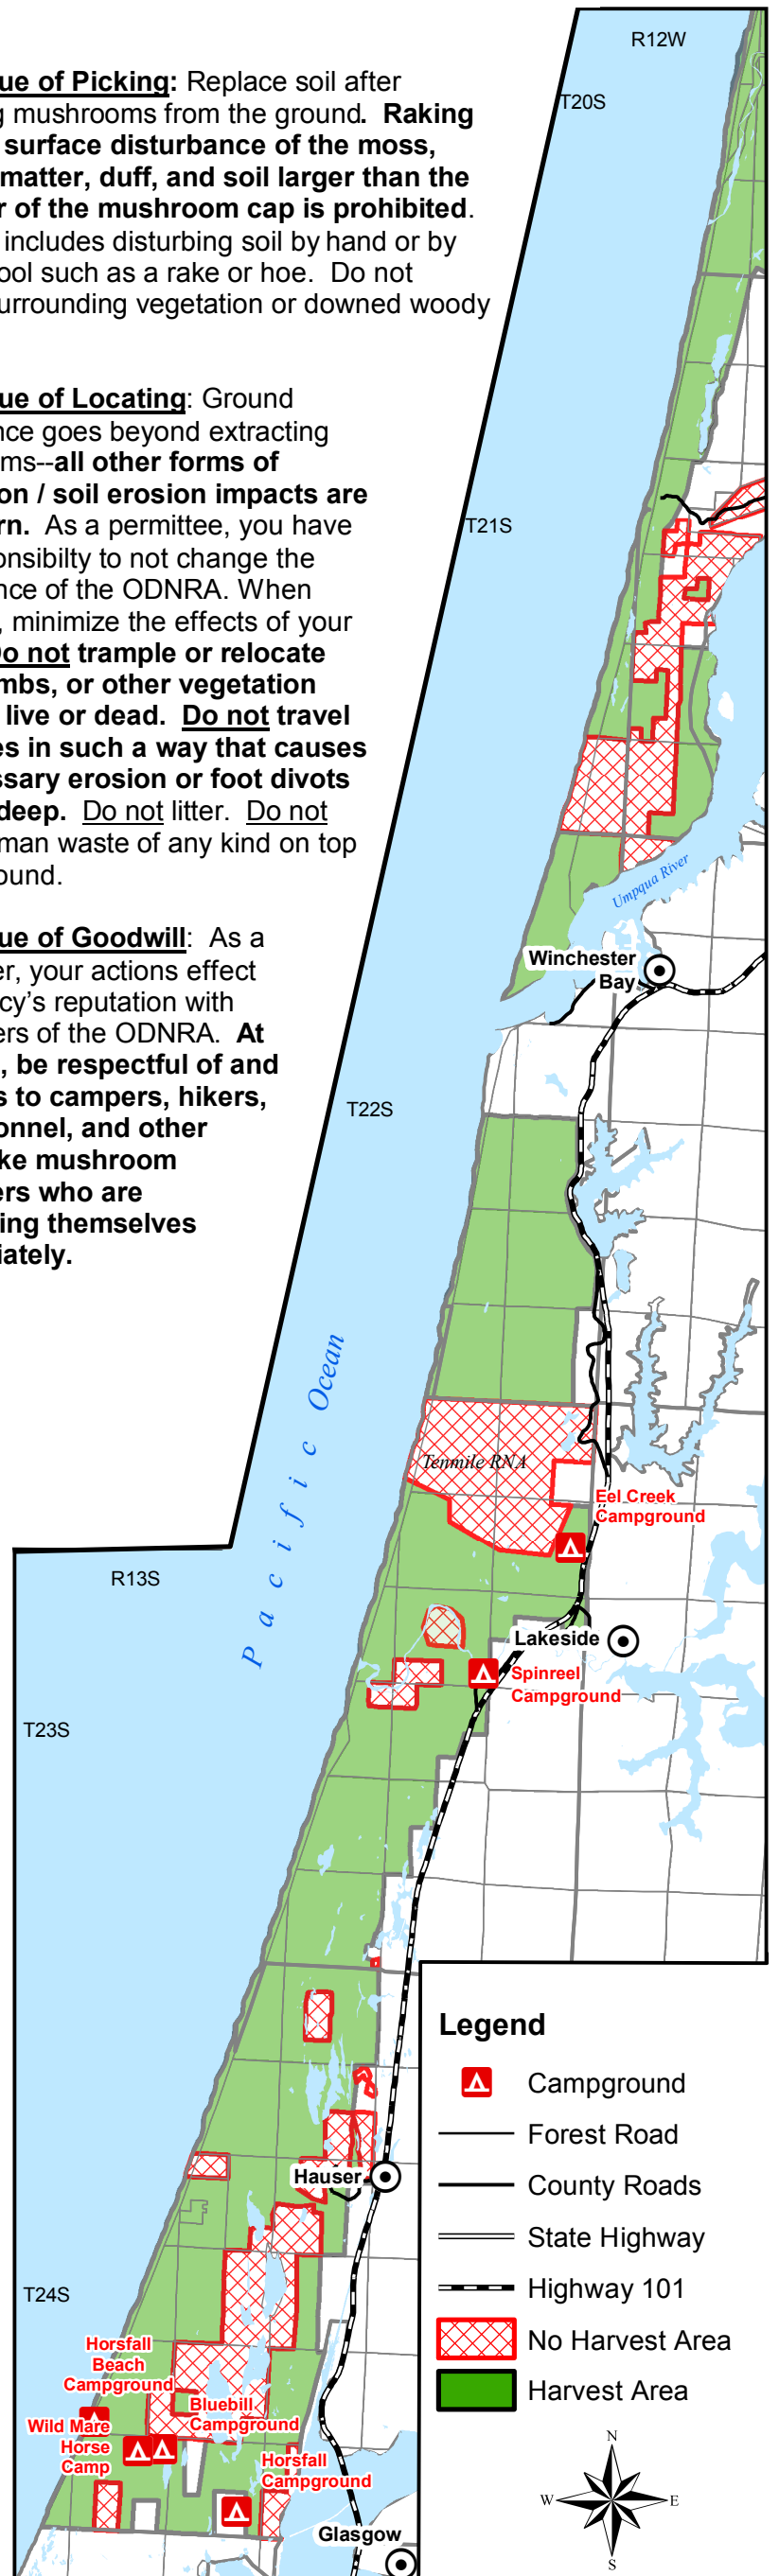

Other Conditions:

- Harvesting is prohibited in National Forest Wilderness Areas, Botanical Areas, Research Areas, and Scenic Areas.
- Harvesting is not allowed within 200 feet slope distance of any developed recreational site (36 CFR 261.6).
- Off road vehicle use is only permitted in "OHV Open Areas" and on "designated routes".
- Harvesting is allowed during daylight hours only. The use of artificial light is NOT permitted while harvesting mushrooms.
- The use of any National Forest Campgrounds as a collection point is prohibited.
- Camping on National Forest while harvesting mushrooms under this Contract will require a separate camping permit.

Technique of Picking: Replace soil after removing mushrooms from the ground. **Raking or other surface disturbance of the moss, organic matter, duff, and soil larger than the diameter of the mushroom cap is prohibited.** "Raking" includes disturbing soil by hand or by using a tool such as a rake or hoe. Do not disturb surrounding vegetation or downed woody debris.

Technique of Locating: Ground disturbance goes beyond extracting mushrooms--**all other forms of vegetation / soil erosion impacts are a concern.** As a permittee, you have the responsibility to not change the appearance of the ODNRA. When traveling, minimize the effects of your travel. **Do not trample or relocate moss, limbs, or other vegetation whether live or dead. Do not travel on slopes in such a way that causes unnecessary erosion or foot divots over 3" deep. Do not litter. Do not leave human waste of any kind on top of the ground.**

Technique of Goodwill: As a purchaser, your actions effect the agency's reputation with other users of the ODNRA. **At all times, be respectful of and courteous to campers, hikers, FS personnel, and other matsutake mushroom harvesters who are conducting themselves appropriately.**
