## Gum Springs Horse Trail

The trail consists of two developed loops. The blue loop is 5.6-miles and is wide enough to accommodate wagons and includes two bridge crossings. Water is available year round at the Bombing Range Pond and elsewhere along the trail dependent upon the season. The man-made Bombing Range Pond is just over an acre in size.

The yellow loop is approximately 18-miles. This loop follows the blue loop for about 2.5-miles. These sections will be blazed with both blue and yellow diamonds. This trail is also wide enough to accommodate wagon traffic. The trail passes between the Mose Blake ponds and has water intermittently along the rest of the trail.

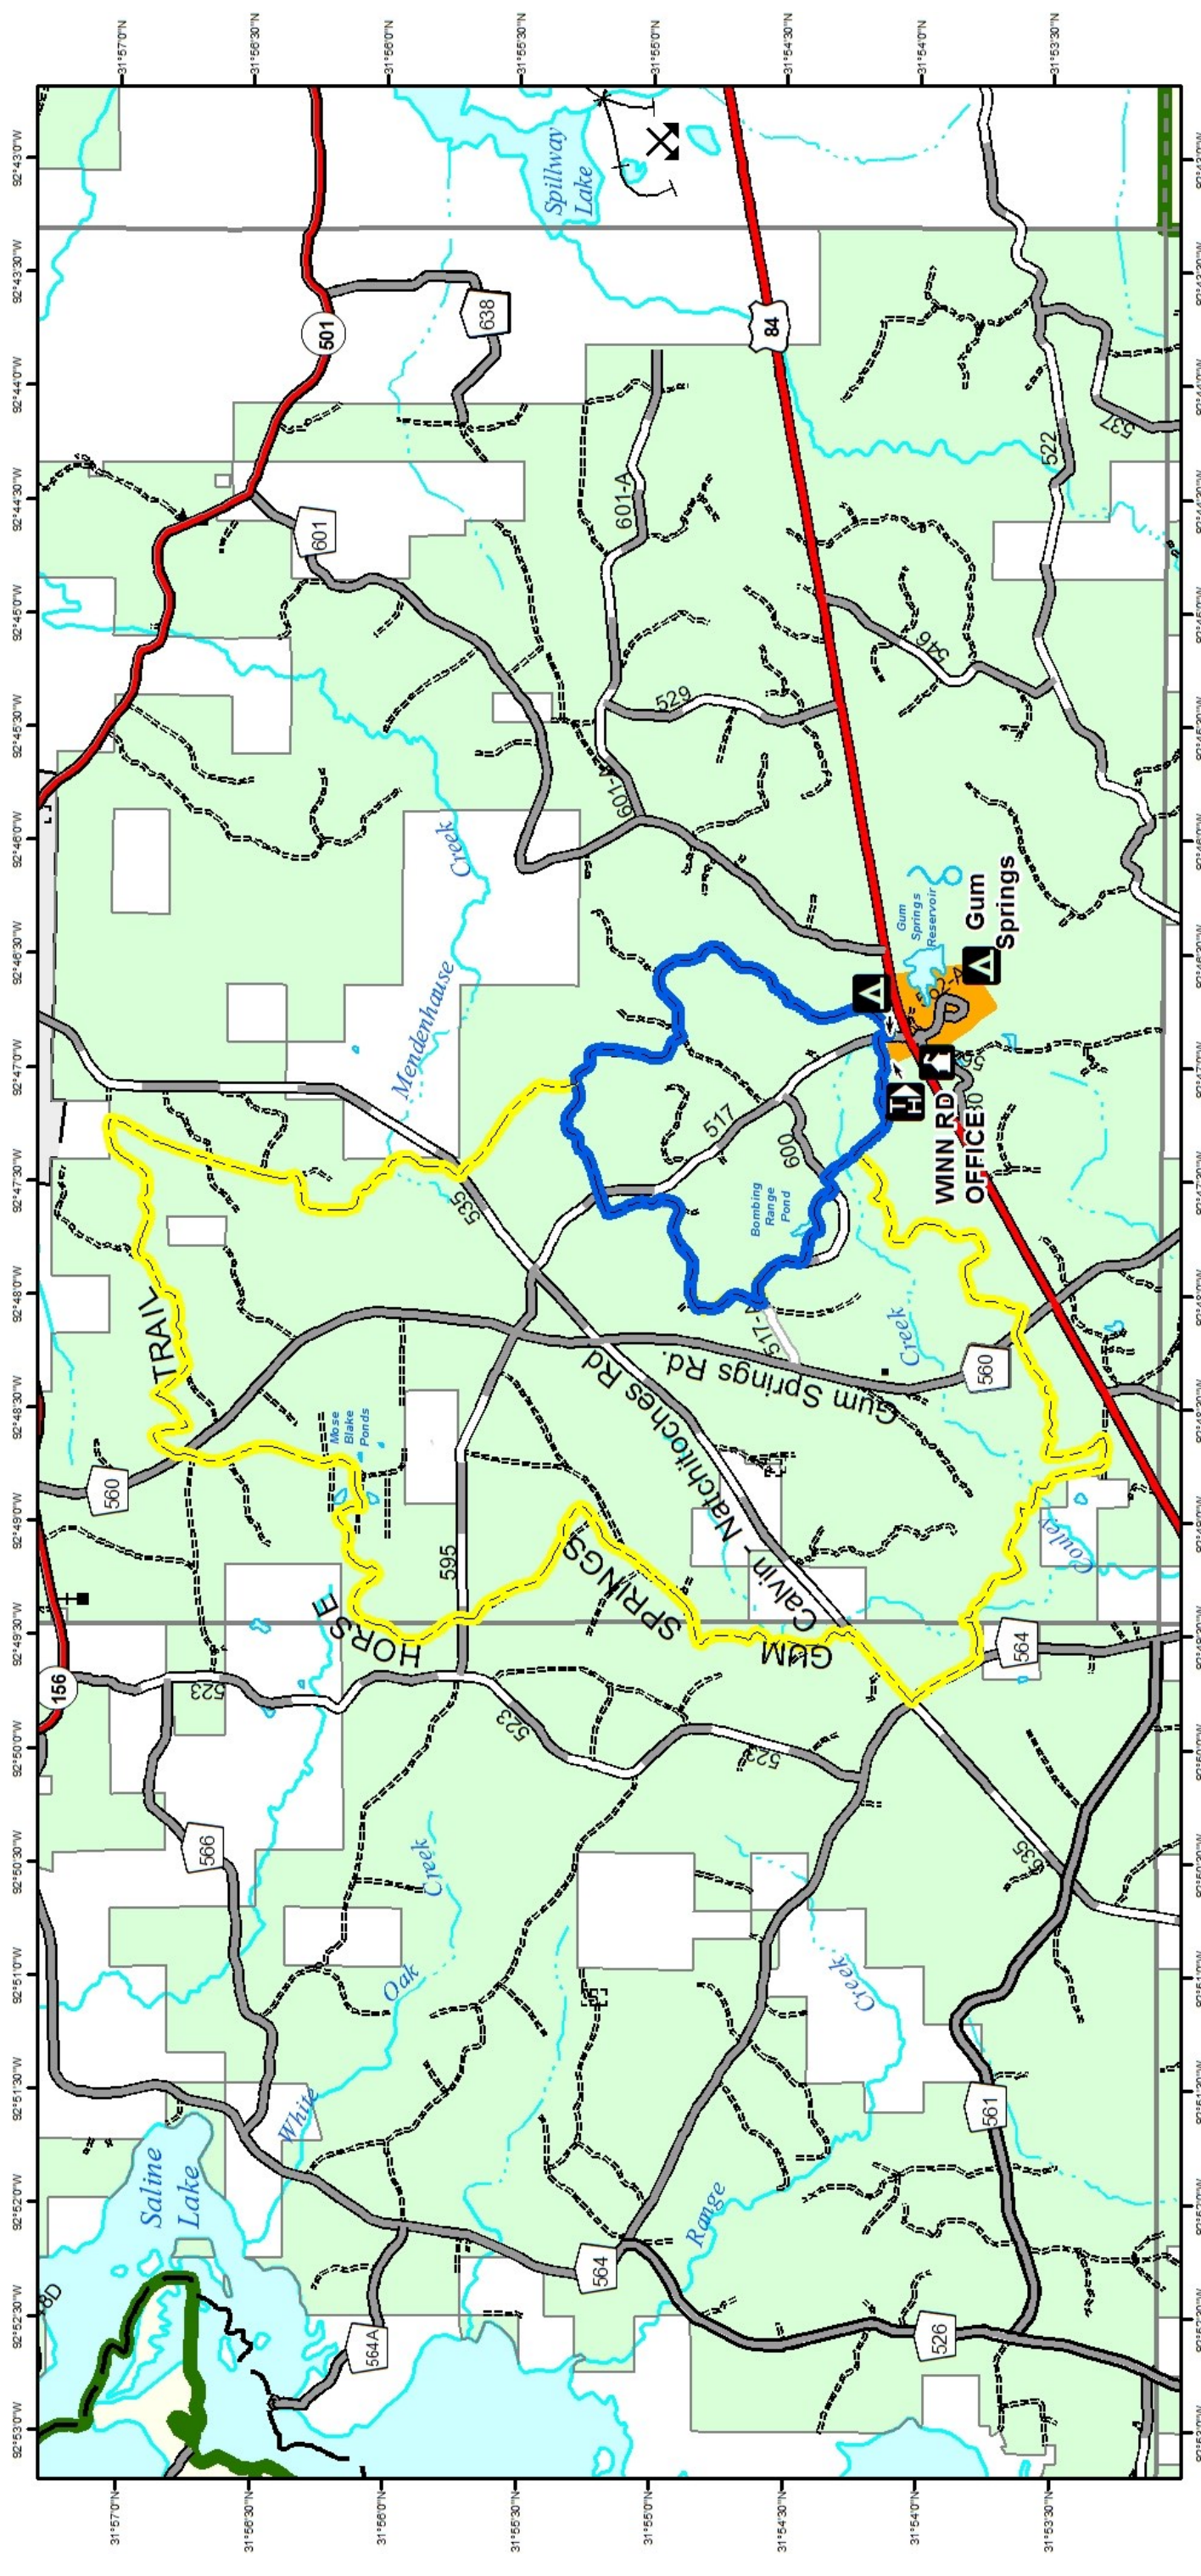

## Keiffer Prairies:

Sections of both trails pass through Keiffer Prairies where native grasses and cedar trees predominate. These prairie remnants are unique and some of the best areas for wildflower viewing on the Forest.
