Marisa Meyer
Acting Field Supervisor
US Fish and Wildlife Service
La Grande Field Office
3502 Highway 30
La Grande, OR 97850

Dear Marisa,

Thank you for your work on the Blue Mountains Plan revision's Biological Assessment (BA). As we have continued our work on completing the Forest Plans, we have identified some minor but necessary modifications to certain plan components as well as table and figure numbering. This addendum to the BA identifies these minor modifications. Please use the attached addendum to the BA to complete your review and finalize formal programmatic consultation on the Blue Mountain Plan revision. Please disregard information in the addendum that applies solely to National Marine Fisheries Service resources. We will provide you a final set of Blue Mountain Forest Plans for your administrative record when we release these documents for the Objections Review process.

Sincerely,

THOMAS MONTOYA
Forest Supervisor
