<p>9. Project Goals and Objectives: Goal: Provide a safe clean and scenic recreation opportunity at Sandy Beach. Objectives: - Replace the deteriorating Picnic Shelter -- Renovate the RomTech Outhouse</p>

<p>10. Project Description: a. Brief: (<i>in one sentence</i>) Renovate the aging facilities at the popular Sandy Beach Picnic area. b. Detailed: On a warm sunny day in July, Sandy Beach offers a singular opportunity to swim in calm, shallow, almost warm water, and sun bathe on soft, fine-grained sand. So many people take advantage of these sunny days at Sandy Beach that there is almost no towel real-estate remaining as the tide comes in. It is one of the most popular and consistently used recreation places on Prince of Wales Island. Yet, its exquisitely scenic location has some drawbacks in terms of the associated facilities. Sun, salt and sand, all of the elements that draw visitors to Sandy Beach, also play havoc on the shelter, toilet and picnic tables, causing them to rust, rot and deteriorate. The structural posts of the Sandy Beach shelter are rotting and require replacement. The existing toilet continues to be serviceable, yet will benefit from new doors, siding and roof. Replacement of the picnic shelter, toilet siding, doors and roof will take place through a contract.</p>

17. List known partnerships or collaborative opportunities.

18. Identify benefits to communities.

Sandy Beach is a recreation site that is primarily used by local residents. It gives people a special place to go and enjoy the outdoors, get some exercise and appreciate the amazing scenery of Clarence Straits, reminding us of why we live here. Such places increase local residential values and help to attract visitors and home buyers to the local area.

19. How does the project benefit federal lands/resources?

This project improves existing infrastructure and perpetuates the agency's ability to provide high quality recreation opportunities on the island. Well-constructed facilities on public lands help prevent vandalism and protect the facility against natural wear and tear.
