Campfire Regulations	No fires permitted above 10,000 feet. The wilderness permit includes the campfire permit. An innovative method for building a Leave No Trace fire is to pack a portable fire pan (a simple metal tray with rigid sides at least three inches high). Metal oil drain pans and pans from backyard barbecue grills are effective and inexpensive fire pans. Fire pans may also be purchased at outdoor sporting goods stores. A campfire permit is required for overnight camping at the trailhead.

Food Storage	<p>This is bear country. It is important to use the most effective food storage methods to protect yourself and your food/refuse from unnecessary bear encounters. Two proven methods acceptable in the Sierra Nevada Wilderness Areas include the use of an approved bear canister or the counter balance methods. To learn more about protecting your food sources and bear activity in the Sierra Nevada visit http://sierrawild.gov/bears/overview. To locate trailheads with food storage lockers please visit: www.climber.org/data/BearBoxes/map.html</p> <p>Please Note: Adjacent National Parks require bear canisters.</p>
Pets	<p>Domestic pets are allowed in the John Muir Wilderness Area. Wilderness Visitors are responsible for their pet's actions and welfare. Pets should be leashed and under direct voice control. When camping or hiking in areas with other visitors, pets must be kept on a leash.</p> <p>Please Note: Adjacent National Parks do not permit pets.</p>
