Unauthorized use of motor vehicles and motorized equipment is prohibited in designated wilderness areas. Violations are punishable by law.

NATIONAL FOREST WILDERNESS

Designated wilderness areas are marked with orange diamonds. These areas are closed to motor vehicles and motorized equipment.

CHECK YOUR MOTOR VEHICLE USE MAP

The Motor Vehicle Use Map (MVUM) is a companion map to the one you are holding. It identifies the roads, trails and areas where motor vehicles are allowed. In general, motorized travel off of designated roads and trails is prohibited. See the MVUM for exceptions.

Forest visitors are allowed to park adjacent to any Forest road or trail where it is safe to do so, does not damage natural and cultural resources, and is not prohibited by signage. Once parked along a road or trail, visitors may engage in other motorized or non-motorized activity, including unloading OHVs for use on roads and trails where they are allowed.

The MVUM defines where motorized access to dispersed campsites is permitted. Check your MVUM to determine if it is allowed on this forest. Motor Vehicle Use Maps are available at the local Forest Service office or at www.fs.fed.us/recreation/programs/ohv/ohv_maps.shtml.

HOW TO USE THIS MAP

The following matrices were created to assist the Forest visitor by identifying "WINTER CROSS-COUNTRY USE" areas and "WINTER DESIGNATED ROUTES" where motorized and non-motorized use can take place. To use this map, first refer to the matrix titled "WINTER CROSS-COUNTRY USE." This matrix shows those areas - indicated by a letter (A, B, C, etc.) - which are open, restricted, or closed to motorized vehicles and/or non-motorized uses off roads and trails. Then go to the "WINTER DESIGNATED ROUTES" matrix.

WINTER CROSS-COUNTRY USE (Opportunities and Restrictions Off Designated Routes)
