

**PURPOSE AND CONTENTS  
OF THIS MAP**

The designations shown on this motor vehicle use map (MVUM) were made by the responsible official pursuant to 36 CFR 212.51, are effective as of the date on the front cover of this MVUM, and will remain in effect until superseded by next year's MVUM.

*Tracy Beck*  
Tracy Beck  
Acting Forest Supervisor

It is the responsibility of the user to acquire the current MVUM. This MVUM shows the National Forest System roads, National Forest System trails, areas within the Forest System, and areas within National Forest that are designated for motor vehicle use pursuant to 36 CFR 212.51. This MVUM also identifies the vehicle classes allowed on each route, trail, or area, and the specific restrictions that apply on those roads and in those areas.

Designation of a road, trail, or area for motor vehicle use by a particular route, trail, or area does not imply that the route, trail, or area is passable, actively maintained, or safe for travel. Motor vehicle use is subject to posted signs, designated routes and at facilities associated with designated routes when it is safe to do so and when not causing damage to National Forest System resources. Designated roads and trails impassable for extended periods. Designated areas may contain dangerous terrain, such as steep slopes, which may be rendered impassable by high-clearance vehicles or four-wheel-drive vehicles. Maintenance of designated roads and trails will be discontinued when they are no longer safe, and areas may receive little or no maintenance.

These designations apply only to National Forest System roads, National Forest System trails, and areas within the National Forest System lands.

The motor vehicle use map identifies those roads, trails, and areas open to the motor vehicle use under 36 CFR 212.51 for the purpose of enforcement. The other paved roads are for information and navigation purposes only and are not subject to designation under the Forest Service Travel Management Program.

**PROHIBITIONS**

It is prohibited to possess or operate a motor vehicle on National Forest System roads on the Fremont-Winema National Forest, other than in accordance with these designations (36 CFR 261.13).

Violators of 36 CFR 261.13 are subject to a fine of up to \$5,000, imprisonment for up to 6 months, or both (18 U.S.C. 3611). Motor vehicle use is prohibited regardless of the presence or absence of signs.

This map does not show facilities and attractions on the Fremont-Winema National Forest. Obtain forest visitor information from the local national forest office.

Designated roads, trails and areas may not be subject to temporary emergency restrictions. Violators must comply with signs notifying you of such restrictions. A national forest may issue an order to close a road, trail or area on a temporary basis to protect natural resources, including but not limited to, the health and cultural resources in these areas. Such a temporary and/or emergency order may be issued by the Travel Management Program (36 CFR 212.52 and 36 CFR 261.13).

The designation "road or trail open to all motor vehicles" does not supersede State traffic law.

**OPERATOR RESPONSIBILITIES**

Operating a motor vehicle on National Forest System roads, National Forest System trails, and in areas on National Forest System lands carries a greater responsibility than operating that vehicle on roads, trails, and areas open to motor vehicle use. You know and follow all applicable traffic laws, you need to show concern for the environment as well as other forest users. The motor vehicle operator is responsible for the safety of the permanent closure of any designated road, trail, or area. As a motor vehicle operator, you are also subject to State traffic law, including but not limited to, licensing, registration, and operation of the vehicle in question.

Motor vehicle use, especially off-road, may cause use involving risks that could result in property damage, serious injury, and possibly death to participants. Drive cautiously and anticipate rough surfaces and features, such as snow, mud, vegetation, and other natural obstacles, and changing conditions. By your participation, you voluntarily assume full responsibility for these damages, risks, and dangers. Take care at all times to protect yourself and those under your responsibility.

Much of the Fremont-Winema National Forest is remote. Medical facilities are not available over cellular. Cellular telephones do not work in many areas of the Fremont-Winema National Forest. Take adequate food, water, first-aid supplies, and other equipment appropriate for the conditions and expected weather.

**ALWAYS REMEMBER TO RESPECT PRIVATE LAND!**

PROTECT YOUR PRIVACY. STAY ON DESIGNATED ROADS, TRAILS, AND IN DESIGNATED AREAS.

Read and understand this map in its entirety. If you have questions, please contact the Fremont-Winema National Forest for clarification.

As a vehicle operator on a National Forest System road, trail, or area you must comply with this map, as well as all Federal, State, and local laws and regulations. Compliance with these rules is your responsibility.

**PARKING**

Motor Vehicles may be parked one vehicle length from the edge of the road surface when it is safe to do so without causing damage to NFS resources or facilities unless prohibited by state law, a traffic sign, or an order (36 CFR 261.54).

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, this agency does not discriminate on the basis of race, color, national origin, age, disability, gender, or gender identity in its programs or activities. Persons with disabilities who require special accommodations for communication for program information (e.g., Braille, large print, American Sign Language, etc.) should contact the State or local office of USDA or the USDA Office of Civil Rights at 1-800-727-0770 or through the Telecommunications Relay Service at 711 (voice or TTY). Program information may be made available in languages other than English.

USDA is an equal opportunity provider and employer.

**EXPLANATION OF LEGEND ITEMS**

Roads Open to Highway Legal Vehicles Only:

These roads are open only to motor vehicles licensed under State law for general operation on all public roads within the state.

Roads Open to All Vehicles:

These roads are open to all motor vehicles, including smaller off-highway vehicles that may not be licensed for highway use or to oversee or overweight vehicles under State traffic law.

High Clearance Vehicles and ATV:

These trails are open to all motor vehicles, including both highway legal and nonhighway legal vehicles.

Seasonal Designation:

Dispersed Camping, Both Sides:

This symbol is used along with a designated road or trail to indicate permitted motor vehicle use for the purpose of dispersed camping. The dots indicate where this activity is permitted. Refer to the Dispersed Camping Table for further instructions.

Dispersed Camping:

Dispersed Camping, Both Sides:

This symbol is used along with a designated road or trail to indicate permitted motor vehicle use for the purpose of dispersed camping. The dots indicate where this activity is permitted. Refer to the Dispersed Camping Table for further instructions.

Other Public Roads and Trails:

Highways, U.S. State

Other Roads

Other Public Roads:

These symbols are used to show routes the Forest Service does not maintain or does not have and has not designated for motorized use. These symbols are part of the reference layers showing connections to towns and cities outside the forest boundary.
