

**Correction to Gallegos et al (2023)**

**09/25/2023**

Historic plat maps were utilized to determine locations on the ground for the USDA Forest Service report Geologic Flood Hazard Assessment of Cabin Sites within the Caldor Fire Eldorado National Forest and Lake Tahoe Management Unit (Gallegos, Annis and Moore, March 28, 2023). However, upon review, Special Use Permit Administrators identified several lot number inaccuracies between the plat maps and the existing permits on file and are listed in the table below:

Tract	Corrections
Aspen Creek	Lot 3 is listed as lot 4 on the report. The area listed as lot 5 on the report is not a lot. Lot 5 is listed as lot 6-1, 6-2, 6-3 on the report. Lot 6 does not exist in the permit system. Lot 7 is listed as 7-1 and 7-2 on the report. Lot 19 is listed as 9701 on the report.
Pyramid	Lot 3, described as Lot 4 in first report.
Sayles Canyon	Lot 14 is listed as lot 13 on the report. Lot 18 is listed as lot 17 on the report. Lot 19 is listed as lot 18 on the report. Lot 39 is listed but the cabin did not burn. Lot 2 previously described as Lot 1
Twin Bridges	Lot 3 is listed as lot 3A & 3B on the report.
47 Milestone	Cabin 109 is in Lot 108 and was assessed in the Phase 1 report as Cabin 108.
