### **Background Information**

The Forest Service is responding to an Unauthorized Noncommercial Large Group Use Incident (Rainbow Family Gathering) on the Mark Twain National Forest, Eleven Point/Doniphan Ranger District. The incident is approximately 6 miles northeast of Thomasville, Missouri, in Oregon County along County Road 430 (Banner Road).

The Forest Service has mobilized a National Incident Management Team with experience managing these types of incidents. The team works closely with the local community, including law enforcement agencies, throughout the incident to protect the health and safety of everyone involved, and to lessen environmental impacts to the site by providing information and enforcing laws.

An incident of this size can have significant impacts on traffic, communities, local resources, residents, and visitors. Local businesses can expect to see large numbers of Rainbow Family participants visiting stores and buying food and supplies along routes to the incident location.

The Rainbow Family of Living Light is a loose-knit group of people from throughout the United States and other countries who gather annually on a national forest. Since the first gathering near Strawberry Lake on the Arapaho National Forest in Colorado in 1972, the incident has taken place on a different national forest each year.
