

DMAP Unit 4820

Description of area

Huntable area: **only Forest Service ownership** within DMAP Unit boundary

Forested with small openings

Principal use: timber production and recreation

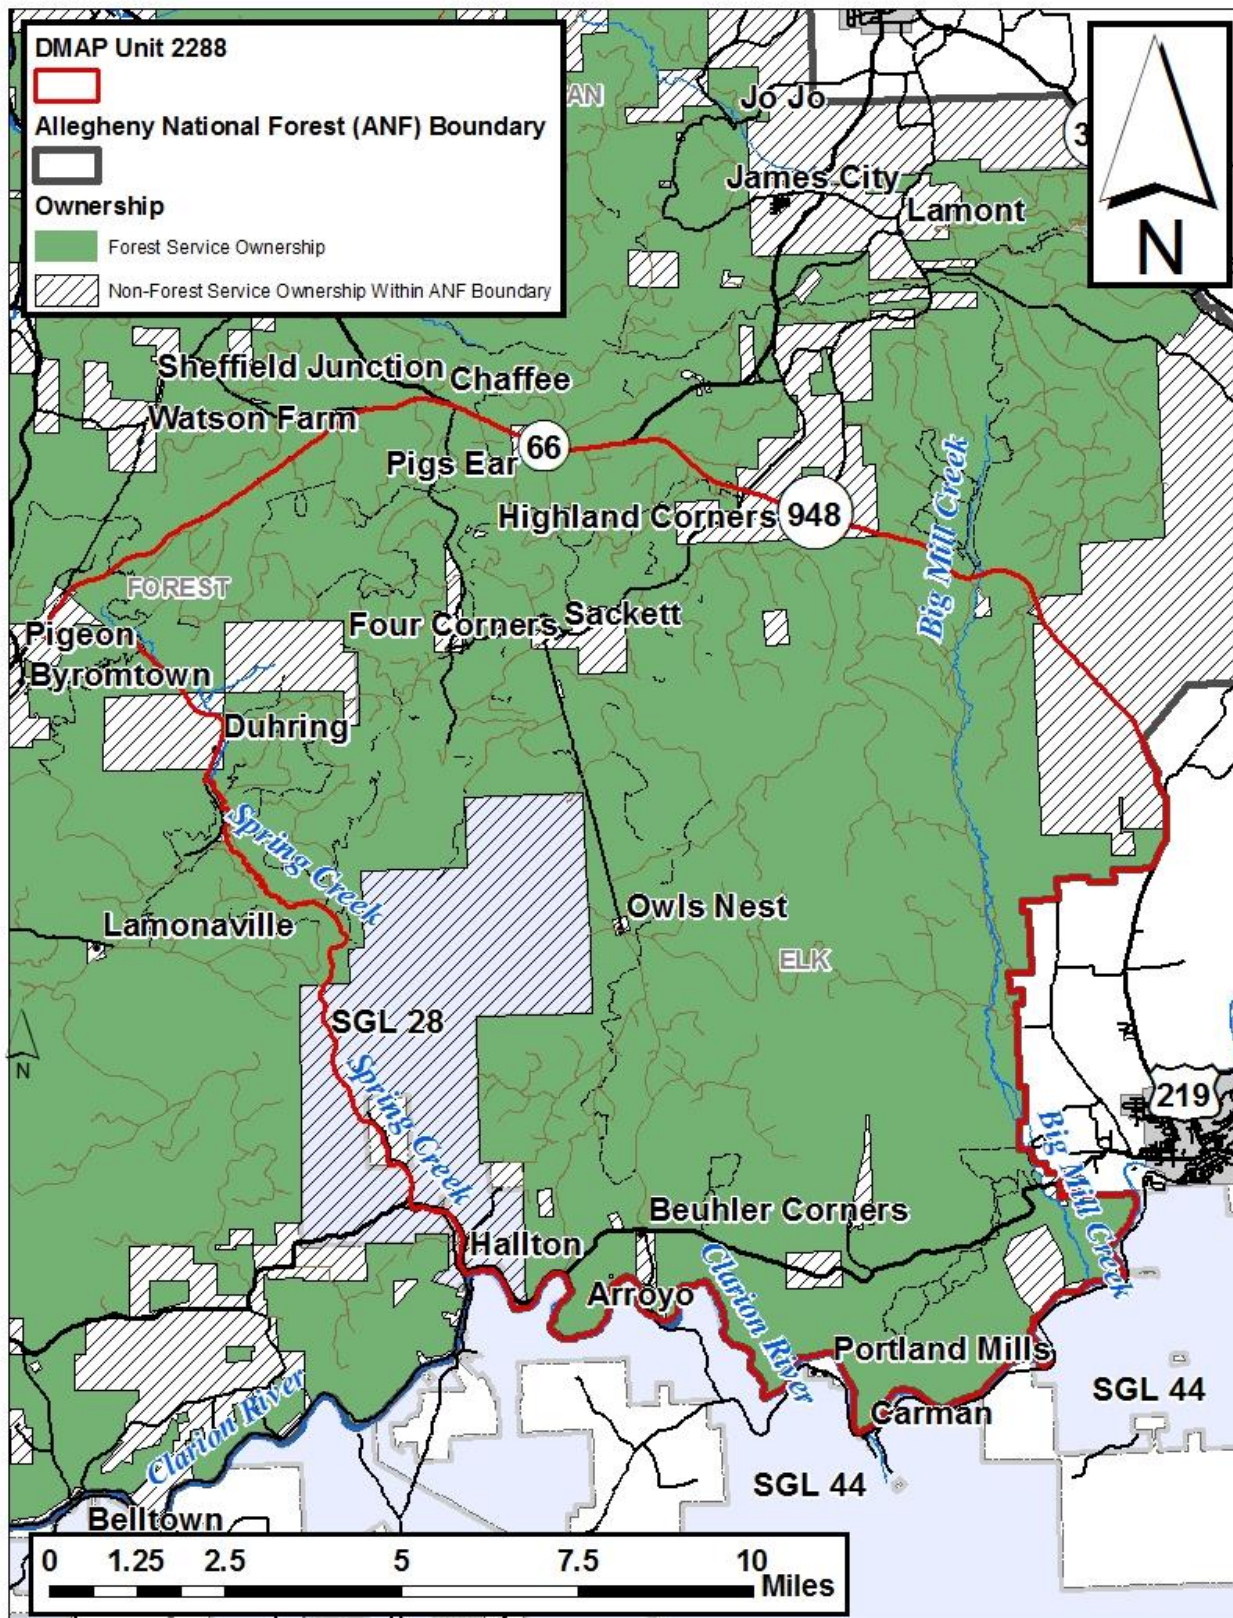

Boundary marking

Bounded on the west by the ANF boundary (marked on trees using vertical red stripes between two hash marks in addition to permanent Forest Service signs every 300')

Bounded on the south by the ANF boundary and Tionesta Creek

Moving east to west, bounded on the north by State Route 666, State Route 62, and State Route 127

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. The Forest Service will not be liable for any activity involving this information.

Description of area

Huntable area: **only Forest Service ownership** within DMAP Unit boundary

Forested with small openings

Principal use: timber production and recreation

Boundary marking

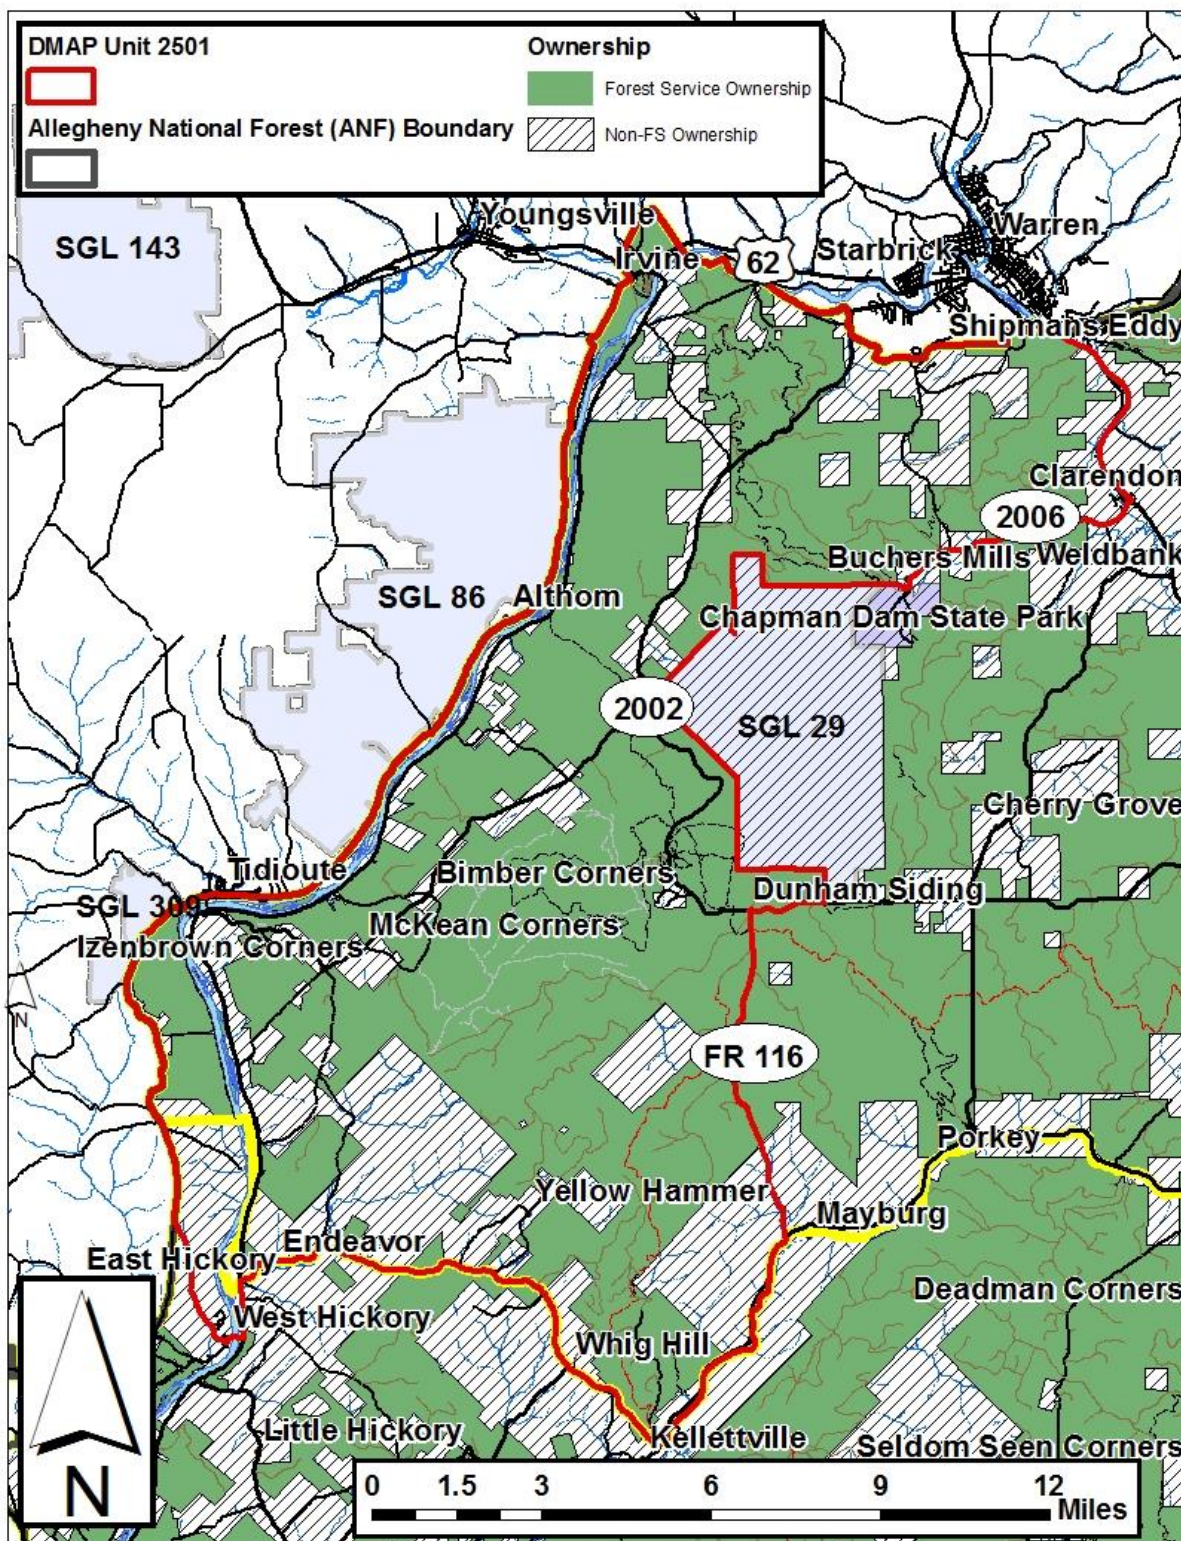

Bounded on the west by Duhring Rd (Township Road 327) and Spring Creek

Bounded on the south by the ANF boundary (marked on trees using vertical red stripes between two hash marks in addition to permanent Forest Service signs every 300')

Bounded on the east by the ANF boundary

Bounded on the north by State Route 948 and State Route 66

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. The Forest Service will not be liable for any activity involving this information.

Description of area

Huntatable area: only **Forest Service ownership** within DMAP Unit boundary

Forested with small openings

Principal use: timber production and recreation

Boundary marking

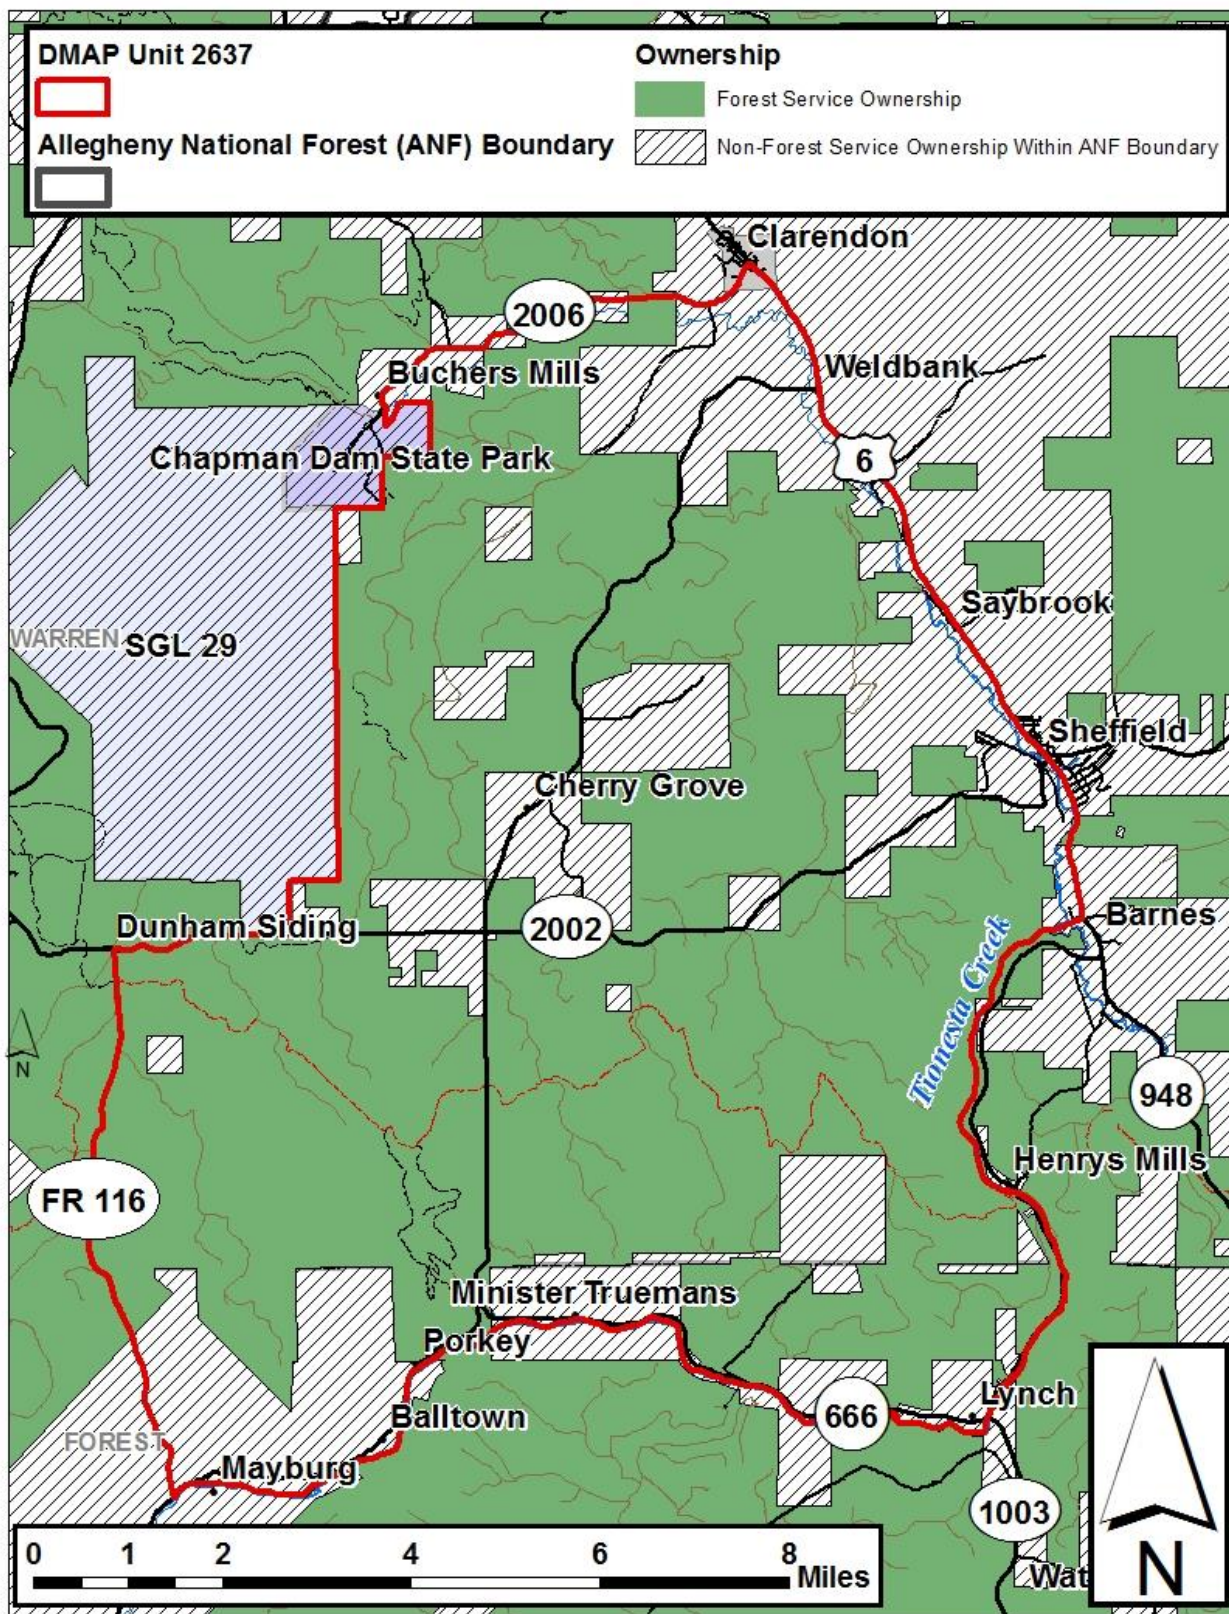

Bounded on the west by the ANF boundary (marked on trees using vertical red stripes between two hash marks in addition to permanent Forest Service signs every 300')

Bounded on the southwest by State Route 127, State Route 62, and State Route 666, and on the southeast by the Tionesta Creek

Bounded on the east by FR 116, State Route 2002 (Austin Hill Road), State Game Lands (SGL) 29, Chapman State Park, State Route 2006 (Railroad Street/Chapman Dam Road), and State Route 6

Bounded on the north by the ANF boundary

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. Description of area

Huntible area: **only Forest Service ownership** within DMAP Unit boundary

Forested with small openings

Principal use: timber production and recreation

Boundary marking

Bounded on the west by State Route 6

Bounded on the south by State Route 6 and Gibbs Hill Rd/Bliss Hill Rd

Bounded on the east by State Route 321

Moving east from State Route 6, this unit is bounded on the north by State Route 59, the Allegheny Reservoir, FR 850 (Sugar Bay Boat Launch), State Route 321, the ANF boundary (marked on trees using vertical red stripes between two hash marks in addition to permanent Forest Service signs every 300'), and State Route 59 again before meeting up with the unit's eastern boundary, State Route 321

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. The Forest Service will not be liable for any activity involving this information.

Description of area

Huntable area: only **Forest Service ownership** within DMAP Unit boundary

Forested with small openings

Principal use: timber production and recreation

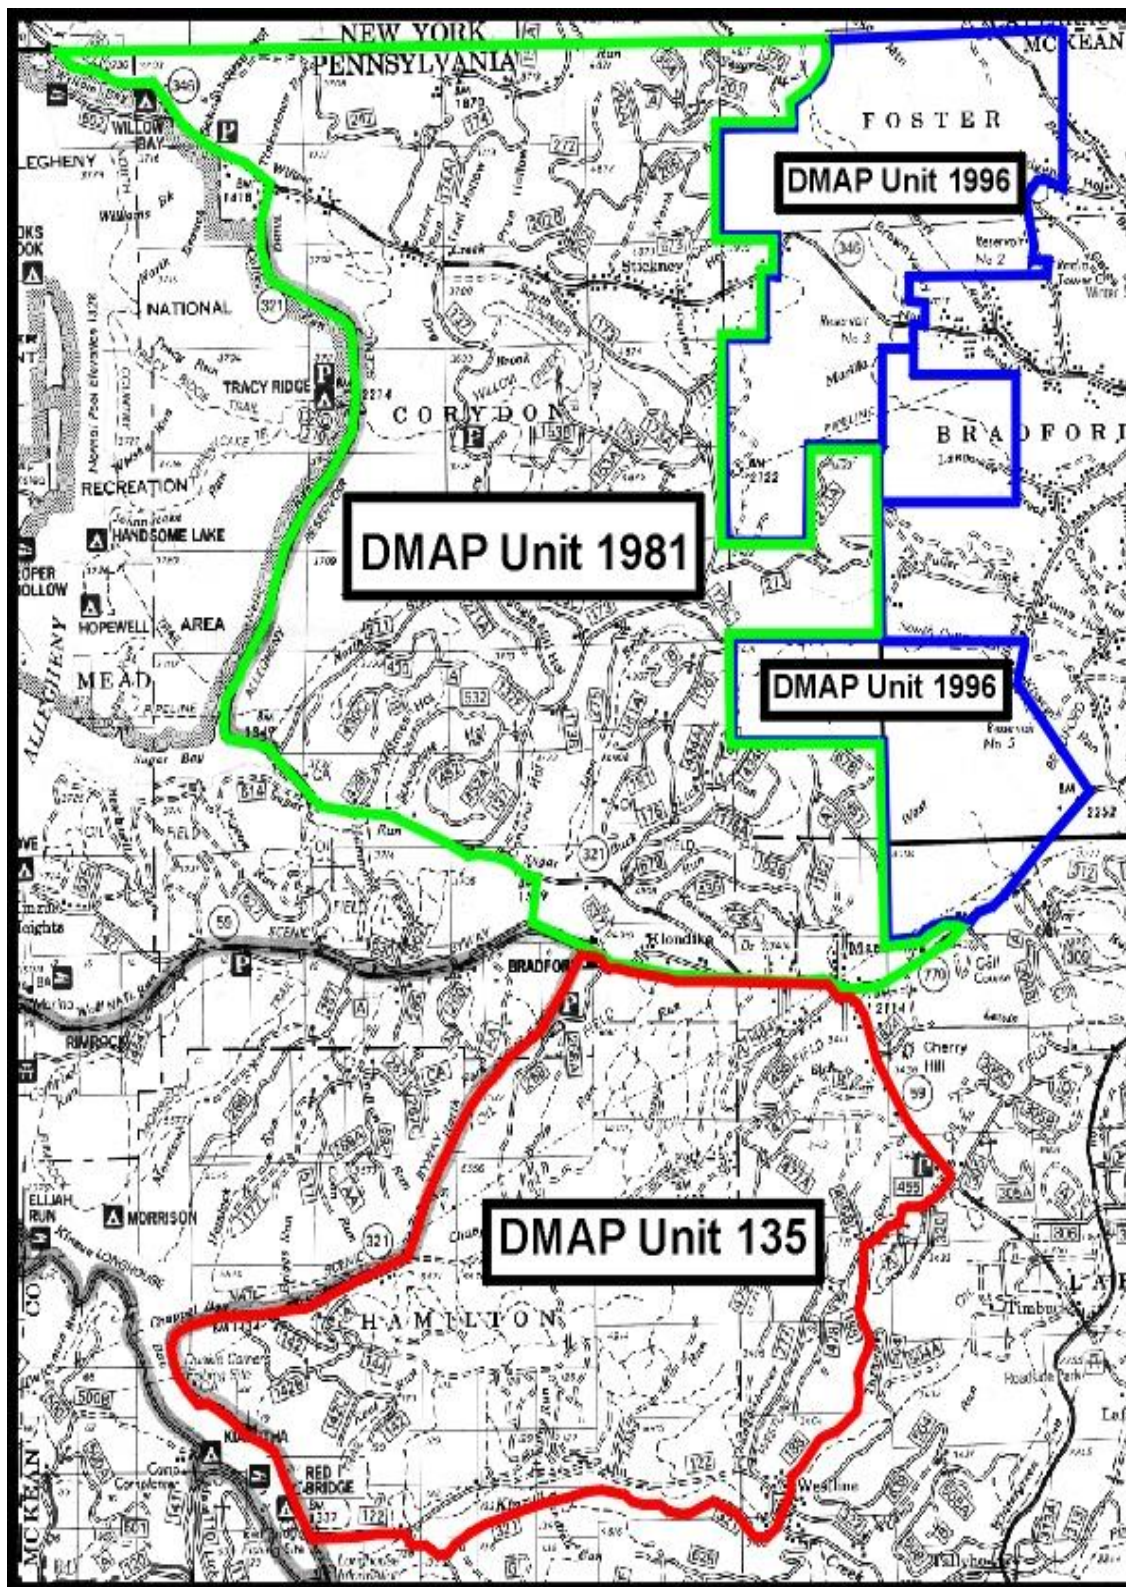

Boundary marking

Bounded on the northwest by the Tionesta Creek

Bounded on the south by the ANF boundary (marked on trees using vertical red stripes between two hash marks in addition to permanent Forest Service signs every 300')

Bounded on the east by State Route 66 and State Route 948

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. The Forest Service will not be liable for any activity involving this information.

DMAP Unit 181 is inside the area outlined in green

Description of area

Huntable area: **only Forest Service and RAM Forest Products** property within DMAP Unit boundary

Forested with small openings

Principal use: timber production and recreation

Boundary Marking

Bounded on the north and east by the ANF boundary (marked on trees using vertical red stripes between two hash marks in addition to permanent Forest Service signs every 300')

Bounded on the west by State Route 321 and the ANF boundary (marking the boundary line between the ANF and RAM Forest Products from State Route 321 south to State Route 59)

Bounded on the south by State Routes 321, then 59 and 770

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. The Forest Service will not be liable for any activity involving this information.
