

ALASKA'S NATIONAL FORESTS

where nature, people, and tradition come together

The Alaska Region is home to the nation's two largest national forests, the Chugach and Tongass, traditional homelands of Alaska Native peoples. The Alaska Region offers amazing diversity and a multitude of uses.

Land Area Summary:
 Chugach National Forest 5,393,049 acres
 Tongass National Forest 16,739,689 acres
 Alaska Region Total 22,132,738 acres
