Dear Prospective Timber Purchasers and Interested Parties:

The Periodic Timber Sale Announcement for the Hiawatha National Forest Timber Sale Program for proposed timber sales to be offered during the period of October 1, 2025, to September 30, 2026, is enclosed.

The program identifies the approximate amount and variety of timber ready to offer for sale during the period. The announcement includes the schedule for all timber sale contracts, stewardship contracts with timber volume and all volume to be offered by partners under any good neighbor authority agreements. The information contained in the announcement should enable you to select, examine and bid on those sales that best suit your operations.

Stewardship projects are identified in the sale name and are a tool available to the Forest Service to enhance and restore landscapes by using the value of traded goods (timber) for important work to be accomplished on the ground (services). There are 3 stewardship projects identified during the program period. The Integrated Resource Timber Contract, 2400-13T, will be used to award all of these contracts. The contract prospectus will describe both the timber sale information and the service contract specifications. These types of contracts will be awarded on a best-value basis. Potential purchasers are encouraged to seek additional information and consider this non-traditional method of procuring Forest Service timber.

Good Neighbor Authority (GNA) sales are identified in the sale name. There are five GNA identified sales during the program period. These sales will be offered, awarded and administered by the State of Michigan.

Two timber sales will be sold and administered by the National Deer Association (NDA).

An analysis of past timber sales on the Hiawatha National Forest shows no need for Small Business Set-Aside Sales for the coming six-month period.

The announcement lists the estimated volumes in cubic measurements. For purposes of converting hundred cubic feet (CCF) to thousand board feet (MBF) and Cords, use the following approximations:

Sawtimber CCF multiplied by .54 = Sawtimber MBF

Pulpwood CCF divided by .79 = Pulpwood Cords

Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY).
