# Volunteers needed for Mt. Baker Snowshoe Program

Do you have experience snowshoeing or would you like to gain more? We need you to help with guided snowshoe trips that present snowshoe basics along with education about winter ecology, local history and safe winter recreation. We provide training and an experienced guide for each trip. Volunteers do not need to be experts.

## Requirements:

- An interest in learning and sharing knowledge.
- Able to hike up to 4-miles over hilly terrain in adverse weather.
- Transportation to and from Glacier Public Service Center (10091 Mt. Baker Highway, Glacier, Washington 98244).
- Available for training on January 25 or 28 and at least one Sunday trip late-February - March.
- Condition appropriate outerwear including goggles. Snowshoes and poles provided.
