

Malheur, Umatilla and Wallowa-Whitman National Forests
Forest Plan Amendments
Updated 11/05/2025

The number and general nature of amendments for each national forest in the Blue Mountains is listed below, from 1990 to present:

Malheur National Forest

Date	Amendment Topic
11/26/1990	Modified the following standards and guidelines within the Snowshoe (Fire) Recovery Area; percent visual disturbance at one time, minimum width of riparian areas adjacent to existing roads, and location of old growth replacement areas.
12/06/1990	Modified the following standards and guidelines within the Sheep Mountain (Fire) Recovery Area; percent visual disturbance at one time, and minimum width of riparian areas adjacent to existing roads.
12/10/1990	Modified wildlife cover standard in the Jungle Analysis Area to allow for treatment of insect and disease problems.
05/24/1991	Allowed the total big game winter range cover in the Gabe Timber Sale area to be reduced from the existing 18% to 17%, which is below the standard.
07/09/1991	Allowed harvest of hazard trees in visual foregrounds of sensitivity level 1 or 2 corridors prior to the completion of a visual corridor plan.
09/06/1991	Replaced the monitoring plan with a more detailed plan; 41 items unchanged, added Dispersed Recreation Facilities and Trail System, dropped Recreation Opportunity Spectrum and Plan Standards – General, and combined Water Quality Protection and Water Cumulative Effects.
09/06/1991	Refined visual foreground and middleground areas (Forest Road 15 and 15, Country Road 63), resulted in 1,049 acre change from MA 14 to MA 1.
09/23/1991	Allowed timber harvest in a sensitivity level II foreground viewshed corridor in the Glade II Timber Sale Area prior to the completion of a viewshed corridor plan.
09/26/1991	Allowed timber harvest in viewshed corridor foreground in the Hog Timber Sale area prior to the completion of a viewshed corridor plan.
04/14/1992	Modified the boundary of the visual corridor along U.S. Highway 395 in the Joaquin Commercial Thinning Review Area, and allowed silvicultural treatment prior to completion of a viewshed corridor plan.
07/15/1992	Established new management area (MA 22a) for the North Malheur Scenic River. Determined suitable timber lands, reduced annual forest ASQ, allowed intensive grazing management strategy, and changed the old growth management strategy.
08/07/1992	Established new management area (MA 22b) for the Malheur Wild and Scenic River. Determined suitable timber lands, reduced annual forest ASQ, allowed intensive grazing management strategy, and changed the old growth management strategy.
08/19/1992	Allowed big-game cover and habitat effectiveness index on the Slip and Slide Timber Sales to drop below standards.

- 08/21/1992 Allowed Dry Analysis Area timber management activities and connected actions to occur in the visual corridor foreground of County Road 65 and Forest Road 15, in the absence of a visual corridor plan.
- 10/13/1992 Modified four visual corridor standards in the Genesis New Perspectives Demonstration Project to allow for silvicultural treatment due to declining forest health.
- 11/17/1992 Designated an old growth replacement area in the Forks Timber Sale Review Area further than the standard of one-quarter mile from the original old growth unit.
- 11/17/1992 Allowed big-game cover levels and habitat effectiveness index on the Leek Timber Sale to be below standards to achieve long-term desired future conditions.
- 03/02/1993 Designated an old growth replacement area on the Hog Flat Planning Area more than one-quarter mile from the original old growth area.
- 04/13/1993 Allowed cover on the Driveway Timber Sale to remain below big-game Winter Ranger Maintenance standards in subwatershed 14I.
- 05/20/1993 Provided public access in the Vinegar Hill/Indian Rock Scenic Area as part of the VV Salvage Sale decision by allowing Forest Road 2010 to remain open.
- 07/11/1993 Relocated Dedicated Old Growth Area #27 to Brophy Creek Drainage and reallocated MA-13 lands to MA-1 lands in the Tin Can Planning Area.
- 07/21/1993 Allowed sanitation salvage of dead and dying timber within Basket Salvage unit 1 prior to completion of a viewshed corridor plan for Forest Road 16.
- 08/04/1993 Allowed timber management activities and connected actions in the visual corridor foreground of U.S. Highway 395 and County Road 65 in the Fawn Analysis Area, prior to completion of a viewshed corridor plan. Located an old growth replacement block beyond a one-quarter mile radius from the original dedicated old growth block.
- 08/13/1993 Modifications within the Shirttail Analysis Area in the Shirttail Creek/Rail Creek subwatershed; relocated tow dedicated old growth areas, changed the middleground boundary of viewshed corridor along U.S. Highway 395, and allowed to create opening size exemption within the middleground of the viewshed corridor.
- 07/11/1994 Allowed big game cover to be below Big Game Winter Ranger Maintenance requirements for the portion of subwatershed 15E within the Cow Cabin Timber Sale Review Area.
- 11/25/1994 Allowed harvesting in a visual corridor without a corridor plan, and exceeded the maximum allowable opening size in a visual corridor in the Cabin Fire Recovery Project.
- 08/18/1995 Allowed harvest entry into several late and old stands as prescribed in the Genesis Ecosystem Management Project.
- 08/18/1995 Allowed road construction within a riparian area in the Dear John Timber Sale so a road along a fish bearing stream could be obliterated.
- 09/21/1995 Moved a dedicated old-growth stand within the Awake Timber Sale Area to a location that better met management requirements, and allowed harvest in an REA for aspen improvement.
- 11/16/1992 Allowed harvest entry into late and old stands in the Starr Timber Sale Area to treat unhealthy understories. Allowed higher than natural levels of concentrated slash in the sensitivity level I visual corridor.
- 11/16/1995 Allowed treatment in late and old growth stands in the Prater Planning Area to maintain and enhance bald eagle winter roost habitat. Replaced a previously withdrawn Plan amendment.

01/22/1996	Allowed salvaged harvest entry into a dedicated old growth stand and a semi-primitive non-motorized area within the Powder Fire Salvage.
04/22/1996	Allowed activities to reduce cover stands in the Reek Timber Sale Area below standards.
07/25/1996	Allowed treatment of root rot pockets in the Guard Timber Sale Area that fragmented a large block of LOS.
07/31/1996	Made PACFISH standards for mining activities consistent with federal regulations.
08/12/1996	Allowed harvest in the Job Timber Sale which reduced the number of large trees in a stand below levels in the Eastside Screens. Allowed new road construction in a class IV RHCA to better meet riparian RMOs.
10/24/1996	Allowed harvest of trees greater than 21 inches diameter due to mistletoe and insect infestation, reduction of Large Tree GTR, and regeneration harvest within a Goshawk PFA; all within the Parish Timber Sale Area.
12/12/1996	Designated Seed Orchards and Evaluation Plantations as Administrative Sites.
01/06/1997	Allowed harvest of trees greater than 21 inches diameter to reduce competition and promote future growth, to reduce levels of mistletoe, and to improve economic viability of proposed treatments within the Clear Creek – 91B Timber Sale Area.
01/22/1997	Allowed harvest of trees greater than 21 inches diameter to reduce inter-tree competition and promote vigor of residual large trees in the Mossy Timber Sale Area.
07/11/1997	Allowed cover to drop below established standards, harvest of trees greater than 21 inches diameter where they compete with aspen, and selection harvest to maintain or enhance old forest conditions within the Badger Timber Sale Area.
07/13/1998	Allowed short term management activities not consistent with current direction within the Summit Fire Recovery Project Area.
03/16/2000	Allowed a stand to move out of connectivity and adjusted the boundaries of Dedicated and Replacement Old Growth management areas in the Dry Fork Analysis Area.
12/05/2000	Relocated two dedicated old growth blocks outside of lands legislated to be exchanged in the Triangle Land Exchange.
01/29/2001	Allowed reduction of big game cover, loss of visual retention characteristics along Highway 26, and adjusted dedicated old growth boundaries in the Olmstead Vegetative and Road Management Project Analysis Area.
07/13/2001	Relocated Designated Old Growth and designated Replacement Old Growth within the PARASOL Vegetation and Watershed Management Project.
04/05/2004	Adjusted snag distribution strategy to leave large, unharvested, patches on greater than a 40-acre basis. Relocated Dedicated Old Growth and Replacement Old Growth areas in the Flagtail Fire Restoration Project.
04/20/2004	Adjust snag distribution strategy (Forest Wide Guideline (FWG) #39) to leave large, unharvested, patches on greater than a 40 acre basis. Relocate Dedicated Old Growth and Replacement Old Growth areas in the Monument Fire Restoration Project.
08/04/2004	Adjusted big game cover Habitat Effectiveness Index (HEI) and components of HEI below Forest Plan Standards or further reduction of existing conditions that currently do not meet standards. Adjusted boundaries of Dedicated Old Growth and establish Replacement Old Growth areas in the Silves Canyon Watershed Restoration Project.

09/28/2004	Adjust snag distribution strategy to leave large, unharvested, patches on greater than a 40 acre basis (Forest Wide Guideline (FWG) #39). Relocate Dedicated Old Growth and Replacement Old Growth areas in the Easy Fire Restoration Project.
12/16/2005	Adjust DOGS and ROGS boundaries in the Merit Project.
11/06/2006	Cut trees over 21" in the Starr Rock Pit
03/16/2007	Designation of Dugout RNA from proposed to established.
03/07/2008	Allow degradation of semiprimitive, nonmotorized recreation to modified for up to 5 years after project is completed in Dry Cabin Wildlife Emphasis Area; waive requirement for wildlife plan prior to timber harvest, Relocate Dedicated Old Growth and Replacement Old Growth areas; define live and dead trees; waive log haul restrictions if goshawk nests are found in the Thorn Fire Recovery Project.
04/24/2008	Designation of the Shaketable RNA from proposed to established.
06/05/2008	Adjust Dedicated Old Growth boundaries and located Replacement Old Growth in the Crawford Project.
12/18/2008	Reduce satisfactory cover below FP standards and move and increase size of DOGS and designate a ROG in the Dads Creek WUI Project.
06/07/2010	Commercial thinning in Old Growth and change pileated woodpecker habitat management objectives to white headed woodpecker management objectives in the Swick Dedicated Old Growth area. Convert OFMS to OFSS below OFMS historical condition in the warm dry biophysical environment in the Damon WUI Project
01/06/2012	thinning within connectivity corridors, reduce satisfactory cover below standard within Soda Valley subwatersheds, thinning and temporary road use within Management Area 14 in the Sada Bear Project
06/20/2012	Designate DOG and ROG in the Marshal Devine Project.
01/31/2013	Designation of an administrative site for the Blue Mountain Snow Park Project.
09/27/2013	Construction of fence within WSR corridor in the Malheur River Aquatic Restoration Project.
09/10/2013	Designation of DOG and ROG, reduce satisfactory cover below standard in summer and winter range in the Galena Project.
09/23/2013	Designation of DOG and ROG, Reduction of satisfactory cover in summer range below standard in the Upper Pine HRFA Project.
09/23/2013	Adjust shade value in hardwood/meadow complexes to values supported by site specific science in the Summit Logan Valley Grazing Authorization.
09/11/2015	Add Aminopyralid (Milestone) to list of chemicals herbicides allowed for treatment of invasive plants Malheur NF Site-Specific Invasive Plant Treatment.
09/14/2015	Designation of DOG/ROG Harvest of tress greater than 21 inches DBH in the Elk 16 Project.
09/30/2015	Designation of DOG/ROG Harvest of tress greater than 21 inches DBH. Reduction of LOS in the Big Mosquito Project.
07/23/2015	Designation of DOG/ROG Harvest of tress greater than 21 inches DBH in the Wolf Project.
08/18/2016	Harvest of trees greater than 21 inches DBH in the Starr Aspen Project.
05/01/2017	Designation of DOG/ROG, Big game: summer range, winter range and satisfactory cover below standard in the Magone Project.
05/30/2017	Designation of DOG/ROG in the Dove Project.
09/28/2017	Designation of DOG/ROG Harvest of tress greater than 21 inches DBH in the Summit Creek Landscape Restoration Project.

02/06/2018	Designation of DOG/ROG Harvest of tress greater than 21 inches DBH in the Flat Vegetation Management Project.
09/13/2019	Designation of DOG/ROG Harvest of tress greater than 21 inches DBH in the Rattlesnake HFRA Project.
05/27/2020	Designation of DOG/ROG Harvest trees greater than 21-inch DBH Treatment, but no reduction, of LOS in the Camp Lick Project.
12/11/2020	Designation of DOG/ROG Harvest trees greater than 21-inch DBH Treatment, but no reduction, of LOS Loss of connectivity corridors between LOS in the Ragged Ruby Project.
07/08/2021	Modification in Visual corridor at communications site and designation of MA19 for the Long Creek Pass Communications Site.
12/02/2022	Designation of DOG/ROG Harvest in LOS Loss of Connectivity between LOS, and big game: summer range and winter range cover below standard in the Cliff Knox Project.
05/13/2022	Amends Malheur National Forest Plan Standard 16 (amended from the Pacific Northwest Region Invasive Plant Program: Preventing and Managing Invasive Plants, USDA 2005, hereafter R6 2005) to list 11 rather than 10 approved herbicide formulations adding Indaziflam.
05/09/2025	Establish a Herd Management Area Plan including appropriate management level. Amend specific language for Goals, Standards, and Objective for population management actions for wild horses in the joint management area in the Murderer’s Creek Wild Horse Project.

Umatilla National Forest

Date	Amendment Topic
03/08/1991	Corrected wording, phrases, and miscellaneous errors.
03/08/1991	Permitted existing motorized use to continue on a trail in the A1 Management Area.
06/22/1992	Exempted the Turner Otter project from certain standards to facilitate salvage and restoration projects.
09/04/1992	Exempted the Windy Springs project from certain standards to facilitate restoration work.
05/06/1993	Exempted the Indianberry Salvage and Rehabilitation project from certain standards to facilitate restoration work.
09/07/1993	Clarified management objectives for the North Fork John Day Wild and Scenic River and defined its boundaries.
12/13/1993	Clarified management objectives for the Grande Ronde Wild and Scenic River and defined its boundaries.
03/30/1994	Added Appendix D (Prescribed Natural Fire Implementation Process) to clarify the national implementation intent.
05/20/1994	Implemented the Eastside Interim Direction EA (Regional Forester’s Amendment No. 1, Screens). Short-term direction to maintain options for old growth related and other species while a complete analysis is developed as part of the Eastside EIS.
02/06/1995	Implemented East End Salvage and Restoration Projects FEIS changes in Management Areas. Corridor along the Blue Mountain Scenic Byway changed from A1 to A4 to allow greater flexibility in management. Reallocated 148 acres of existing old growth habitat as C1 to replace an unsuitable stand currently allocated as C1.

- 02/24/1995 Added management direction contained in Interim Strategies for Managing Anadromous Fish Producing Watershed on Federal Lands in Eastern Oregon and Washington, Idaho, and Portions of California EA (PACFISH). Intended to arrest and reverse the decline in anadromous fish habitat until longer term options are developed.
- 06/12/1995 Continued Interim Management Direction Establishing Riparian, Ecosystem and Wildlife Stands for Timber Sales (Regional Forester's Amendment No. 2, Screens). Amended direction in Regional Forester's Amendment No. 1 (Umatilla Forest Plan Amendment NO. 8, dated 94/05/20).
- 02/14/1996 Permitted harvest of selected trees over 21 inches dbh in units 29 and 30 of the Indianberry Salvage and Rehabilitation Project. Needed to meet silvicultural objectives.
- 05/08/1996 Exempted the Camas Restoration Project from certain standards to facilitate restoration work.
- 05/29/1996 Exempted the Tucannon Timber Sale from certain standards to facilitate restoration work.
- 10/2/1996 Exempted the Rock Hard Salvage Sale from certain standards to facilitate restoration work.
- 12/10/1996 Exempted the Wheeler Point Fire Salvage Sale from certain standards to facilitate restoration work.
- 02/02/1997 Added Forest-wide management requirements for oil and gas leasing; including standard lease terms, lease notices, supplemental stipulation, and stipulation base map.
- 09/08/1997 Implemented Big Tower changes in standards and guidelines, and Management Areas. Standards and guidelines changed were HEI requirements in C3 and C7; dispersion of created opening requirements in C3, C4, C5 and C7; and successional state requirements in C4. Management area delineations were developed for private land acquired by the Forest in 1988. This amendment will be superseded by an amendment in the Tower Fire Projects EIS Record of Decision.
- 06/01/1998 Implemented Cliffhanger Timber Sale EA changes in Management Areas. Because of public interest in the Whitman Interpretive Trail, both sides of Forest Road 3109 (which accesses the trail) changed from C4 to A4 (330 acres); and Whitman Interpretive Trail area changed from C4 to A6 (40 acres). Two hundred acres around the top of Spring Mountain changed from C4 to A9 to protect a prairie falcons nest site.
- 11/05/1998 Implemented Abla Timber Sale and Fuel Reduction Project EA changes in Management Areas. Portions of areas along Forest Road 6403 changed from A3 to A4 to give greater flexibility in constructing a fuel break.
- 06/12/2000 Implemented Eden Timber Sale and Fire Reintroduction Project adjustments to a Dedicated Old Growth area boundary.
- 06/16/2003 Identified 1,300 acres of dedicated old growth stands (Management Area C1) to replace those lost in the Tower Fire.
- 04/30/2004 Changed HEI standard in the Monument C3 Management Area from 70 to 67 for the duration of the Bologna Basin Project.
- 05/13/2004 As part of the Pedro/Colt Decision Management Area C1 boundaries were adjusted, moving them away from system roads and Management Area C3 was changed to C4.
- 07/09/2004 Changed HEI standard in the Monument C3 Management Area from 70 to 67 for the duration of the Rimrock project.
- 07/08/2005 Within the Timothy Lynx Analysis Unit of the Lower Sheep Timber sale, amend Forest Plan that adds management direction (objectives, standards & guidelines) for Canada Lynx.

- 10/11/2005 All National Forests in Region are released from direction for unwanted, non-native vegetation in the 1988 ROD for Managing Competing/Unwanted Veg and Mediated Agreement, 1989. New desired, future condition, goals/objectives, standards, inventory and monitoring frameworks are implemented.
- 12/30/2005 Within the Upper Charley subwatershed, amend Forest Plan that adds management direction (objectives, standards, & guidelines) for Canada Lynx.
- 02/23/2006 Changed HEI standard in the Monument C3 management area from 70 to 69 for the duration of the Sunflower Bacon project.
- 08/14/2006 School Fire Recovery amends Forest Plan that adds management direction for Canada Lynx; amend to replace four C1 dedicated old growth unites that no longer function as old growth habitat due to fire loss.
- 06/11/2007 School Fire Recovery amends Forest Plant that modifies the Eastside Screens wildlife standard at 6d.(2)(a) to define both live and dead trees to clarify the appeal court's definition from the dictionary.
- 07/29/2008 Wenaha Breaks Research Natural Area (RNA) amends Forest Plan from proposed to established status.
- 08/01/2008 Loon Fuels Reduction Project amends Forest Plan (TM-1, FM-1, RA-2) that allows danger tree and fuel management actions with the Little Phillips Creek RHCA.
- 06/06/2009 Wildcat Project, Project Specific Amendment: Amends the FP which allows cutting of trees $\geq 21''$ in 2 aspen stands totaling 12 acres. *Decision (and thereby amendment) was withdrawn on 11/12/2009.*
- 05/18/2009 Cobbler Timber Sale and Fuels Reduction Project; Project Specific Amendment: Reallocate Elk Flats Meadow (70 acres) to Forest Plan management area A9 - Special Interest Area, which allows for restoration treatments of existing aspen stands that are in a state of degradation due to increased competition from conifers. This amendment will also allow an adjacent portion of management area E2-Timber and Big Game (30 acres) to be reallocated as A9, and a very small area (10 acres) in D2 that does not contain any hardwood stands will be reallocated to management area E2. *Decision (and thereby amendment) was withdrawn on 07/29/2009.*
- 07/12/2010 Wildcat II Fuels Reduction and Vegetation Management Project; Project Specific Amendment: Amends the FP to allow cutting of trees $\geq 21''$ for restoration of 2 aspen stands totaling 12 acres.
- 10/08/2010 Cobbler II Timber Sale and Fuels Management Project; Project Specific Amendment: Reallocate Elk Flats Meadow (70 acres) to Forest Plan management area A9-Special Interest Area, which allows for restoration treatments of existing aspen stands that are in a state of degradation due to increased competition from conifers. This amendment will also allow an adjacent portion of management area E2-Timber and Big Game (30 acres) to be reallocated as A9, and a very small area (10 acres) in D2 that does not contain any hardwood stands will be reallocated to management area E2.
- 03/22/2016 Administrative Boundary Adjustments – adjusts the boundaries for two administrative areas near communications sites.
- 03/22/2017 Addition of Aminopyralid to Forest Plan – adds aminopyralid as a herbicide approved for use.

12/09/2019 High Ridge Management Area: This amendment decision allocates approximately 900 acres of management area E2 Timber and Big Game to replace the deleted F3 management area.

Wallowa-Whitman National Forest

Date	Amendment Topic
03/15/1991	Added a new range allotment planning schedule and made errata type corrections.
05/24/1991	Changed about 70 acres from MA 1 to MA 16 to permit development and management of Blue Mountain segment of the Oregon Trail. Changed road and trail visual sensitivity in the same area.
12/23/1991	Modified the Wildlife Standard and Guideline No. 5 to incorporate the "Bighorn/Domestic Sheep Management Strategy for the Wallowa-Whitman National Forest". <i>Decision reversed by the Deputy Regional Forester on June 23, 1992.</i>
04/02/1992	Changed standards and guidelines to say management of competing and unwanted vegetation will tier to the FEIS for Managing Competing and Unwanted Vegetation, USDA Forest Service, Pacific Northwest Region, December 1988 or subsequent NEPA documents.
08/06/1992	Incorporated definitions and review process for river craft for the Snake River Recreation Management area. Allocated Cache Creek area (purchased in June 1991) to Management Area 9 (6,549 acres) and Management Area 16 (7 acres).
01/05/1993	Incorporated management direction from the Imnaha Wild and Scenic River Management Plan.
07/07/1993	Incorporated management direction for the Lostine Wild and Scenic River.
09/13/1993	Incorporated management direction for the North Fork John Day Wild and Scenic River.
12/17/1993	Incorporated management direction for the Grande Ronde Wild and Scenic River.
02/04/1994	Added implementing direction for the use of prescribe fire within Wilderness.
05/20/1994	Extended interim management direction establishing riparian, ecosystem, and wildlife stands for timber sales on Eastside forests pending completion of the Eastside Ecosystem Management Strategy. (Regional Forester Amendment #1).
05/26/1994	Added direction for long and short term snag management levels. Redesigned Sufferin Smith Timber Sale to meet eastside ecosystem screens.
06/07/1994	Incorporated management direction for the Joseph Creek Wild and Scenic River.
12/21/1994	Approved the Wild and Scenic Snake River Recreation Management Plan for the administrative area of the Wild and Scenic River corridor.
12/22/1994	Incorporated direction dealing with the management of the Eagle Creek Wild and Scenic River.
01/13/1995	Incorporated direction dealing with the management of the Eagle Ca Wilderness and the Minam Wild and Scenic River.
02/24/1995	Interim Strategies for Managing Anadromous Fish-producing Watersheds in Eastern Oregon and Washington, Idaho, and Portions of California (PACFISH). (Regional Forester Amendment #3).
06/08/1995	Revised Interim Standards for Timber Sales on Eastside Forests. (Regional Forester Amendment #2).

07/28/1995	Interim Strategies for Managing Inland Fish-producing Watersheds in Eastern Oregon and Washington, Idaho, and Portions of California (INFISH). (Regional Forester Amendments #4).
07/31/1995	Documented selection of the preferred alternative for the Eagle-Paddy Timber Sale, which affected the Eastside Screens.
09/09/1996	Added direction to the Wild and Scenic Snake River Recreation Management Plan to proceed with implementation of proposed outfitter-guide use allocations and operational limitations.
12/18/1996	Documented selection of the preferred alternative for Dark Horn Salvage Sale Project. Affected PACFISH by treating riparian habitat conservation areas.
12/18/1996	Documented selection of the preferred alternative for Eagle Holcomb Timber Sale. Affected Eastside Screens by harvesting trees greater than 21 inches DBH. As a result of administrative appeals, trees greater than 21 inches were dropped from the sale.
05/13/1997	Documented selection of preferred alternative for Spring Creek Restoration Project. Affected PACFISH by treating riparian habitat conservation areas.
07/14/1997	Allowed harvest in 34 acres of Late Old Structure stands in the Dry melon Timber Sale. Affected Regional Forester Amendment #2 by harvesting LOS stages in a watershed that is below the Historic Range of Variation for LOS.
05/05/1999	Established direction for management of outfitters and guides in the Eagle Cap Wilderness.
03/20/2000	Allowed cutting of trees greater than 21 inches in diameter on the Starkey Research Restoration and Fuels Reduction Project to validate squirrel/dwarf mistletoe research.
05/10/2000	Changed the Government Draw Research Natural Area from a “proposed RNA” to an “established RNA”. Name was later changed to Gerald S. Strickler RNA.
05/01/2001	Carrol Creek Fire Salvage and Restoration Project – Modified area of Old Growth designation.
05/25/2001	Changed Vance Knoll Research Natural Area from a “proposed RNA” to an “established RNA”.
07/21/2003	Provide management direction form the Hells Canyon National Recreation Area.
03/19/2004	Documented selection of Alternative D for spooner Vegetation Management Project. Adopted applicable standards and guidelines from the 2000 Canada Lynx Conservation Assessment and Strategy for the Spooner project area.
11/10/2004	Changed Duck Lake Research Natural Area from proposed to be established.
12/15/2004	Changes to two sections in the Forest Plan for the Mt. Emily analysis area. The two sections are: 1) treatment of late and old structure that are below the historic range of variability and 2) treatment in the Bull Canyon allocated old growth (MA 15) in the Mt. Emily Fuels Reduction project.
09/30/2005	Added applicable conservation measures from the Canada Lynx Conservation Assessment and Strategy for the project area in the Moss-Potters Restoration Project.
10/11/2005	Pacific Northwest Region Invasive Plant Program Preventing and Managing Invasive Plants – new goals, objectives, and standards for managing invasive plants.
06/28/2006	Forest Plan amendments for: 1) treatment of late and old structure that are below the historic range of variability and 2) added applicable conservation measures from the Canada Lynx Conservation Assessment and Strategy for the project area in Mt. Emily II Project.

02/22/2007	Forest Plan amendment needed for treatment of late and old structure that is below the historic range of variability – Decision pulled in July 2006, new decision made in February, 2007 in the Bald Angel Vegetation Management Project.
12/18/2006	Forest Plan amendments for: 1) treatment of late and old structure below the historic range of variability and 2) added applicable conservation measures from the Canada Lynx Conservation Assessment and Strategy for the Mt. Howard project area.
04/22/2008	Movement of multi-story LOS to single story LOS in the Medical Springs WUI Project.
08/18/2008	Forest Plan Amendments needed for 1) 1) treatment of late and old structure below the historic range of variability, 2) treatment in areas of marginal cover in MA 3, and 3) removal of trees over 21” dbh to treat mistletoe infestation. NOTE: No >21” trees cut; instead large trees were girdled. (DRN – research for B2H Project August 2016) in the Horsefly Vegetation Management Project
04/09/2010	Forest Plan amendment for treatment of LOS below HRV in the Sugar Vegetation Management Project
08/26/2010	Forest Plan amendment for 1) harvest of live trees greater than 21-inch diameter, and 2) harvest within LOS for other than moving from one LOS stage to another in the Tremble Aspen Restoration Project.
11/03/2011	Changes MA designation immediately surrounding Sled Springs Administrative Site, including changing 6 acres of MA 15 (old growth) to MA 1 and providing 2 replacement old growth stands totaling 58 acres in the Muddy Sled Vegetation Management Project.
11/30/2011	Forest plan amendments for 1) harvest in MSLT below HRV, and 2) harvest in MA 15 old growth in the Cove II WUI Project.
07/28/2016	Amendments for harvest within LOS below HRV, treatment in MA15, fuels reduction in MA6 in the East Face Vegetation Management Project.
03/17/2017	Amend Eastside Screens to allow treatment in LOS below HRV (treatment allowed in 25 acres of OFSS; <u>no</u> harvest of >21” dbh) in the Lower Joseph Creek Restoration Project.
04/17/2017	Haystack Rock and Horse Pasture Ridge Research Natural Areas changing status from proposed to established in the Lower Joseph Creek Restoration Project.
07/15/2017	Add Aminopyralid to the list of herbicide ingredients on the WWNF (Decision Memo). Updates R6 2005 ROD which authorizes 10 herbicide active ingredients for use in the region.
11/9/2018	Amendments for PACFISH, Eastside Screens and VQOs in the Boardman to Hemingway Transmission Line Project.
