In Case of Emergency
 Dial 9-1-1

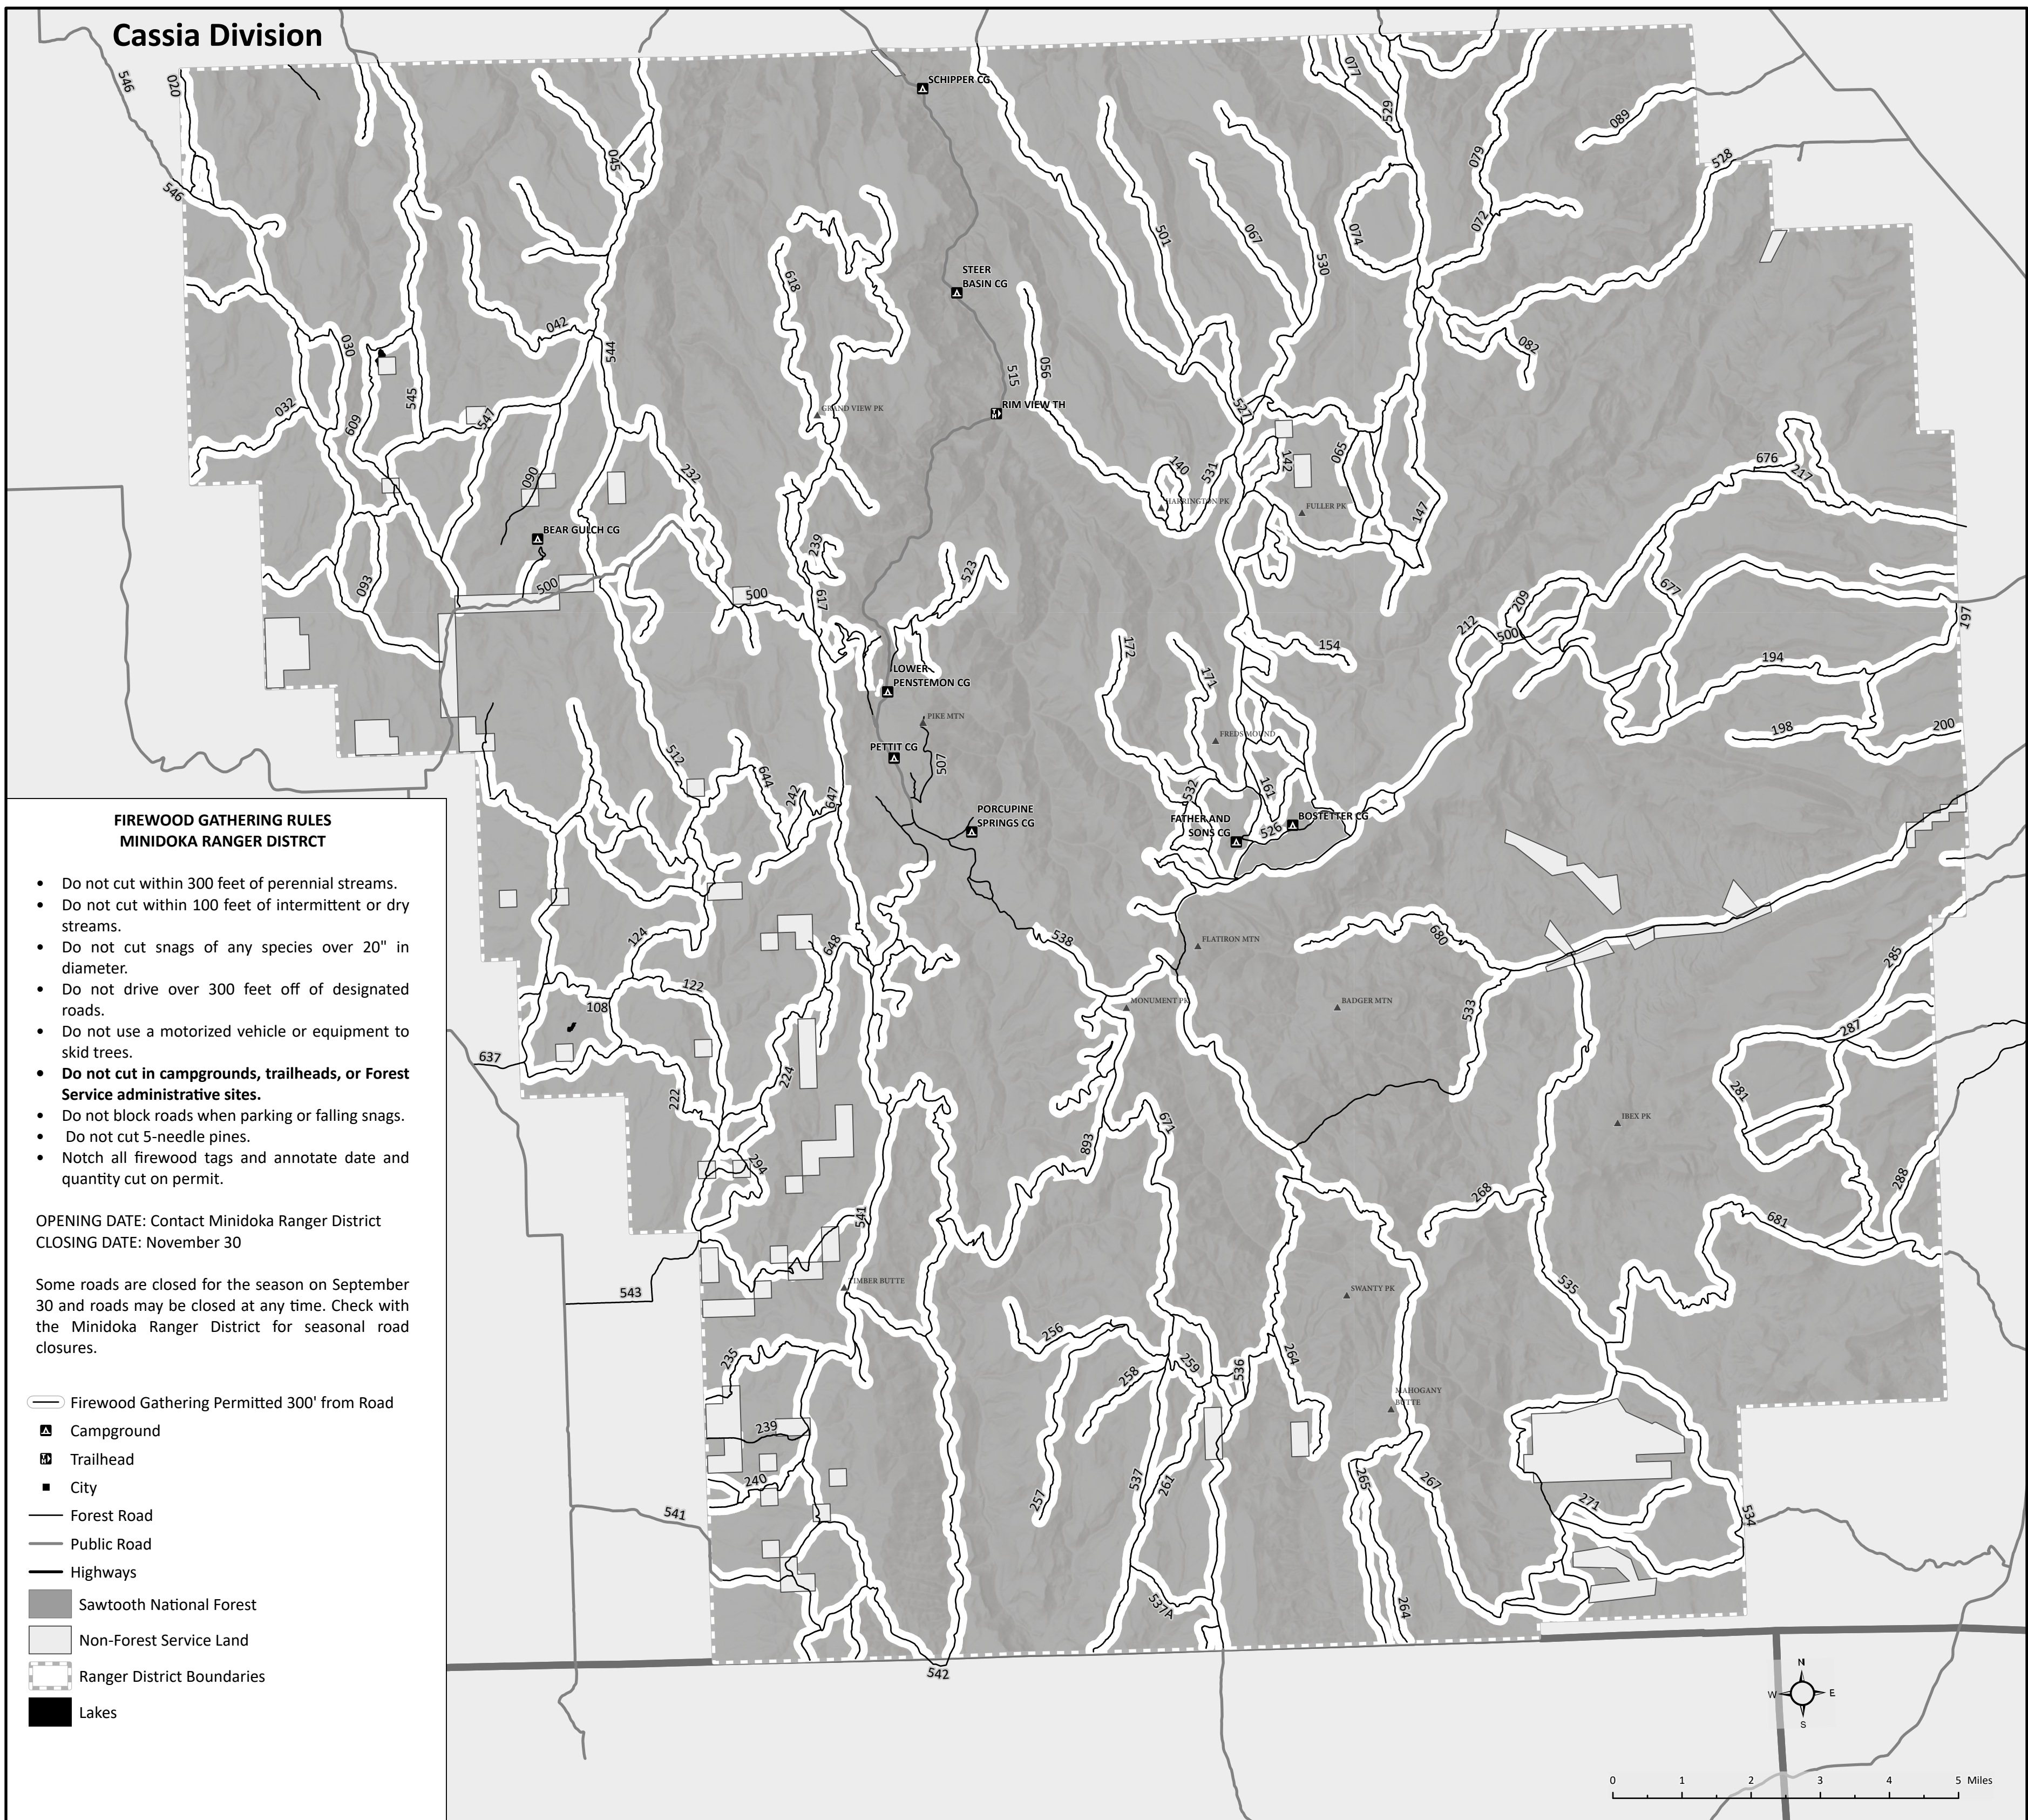

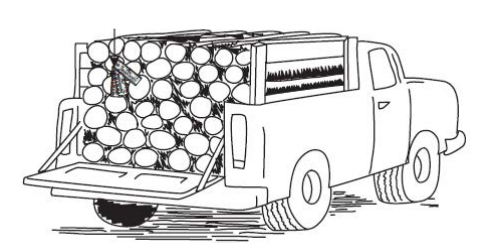

It is your responsibility to tag your firewood properly. If you fail to tag your load or validate your tags, you are in violation of the terms and conditions of your permit and may be subject to fines, penalties, and further prosecution.

Helpful tips on load tags:

- Use a staple gun and hammer to affix tags
- Cover tags in a clear plastic bag if rainy or wet
- Fan out tags to show total amount of cords removed

To properly validate and tag your load:

- 1) Use one tag for each 1/4 cord of wood being hauled.
- 2) Notches for month and day must be cut out and removed from all tags before transporting wood.
- 3) Tags must be attached in a visible position on the left rear of the load when transporting.

FIREWOOD GATHERING RULES
MINIDOKA RANGER DISTRICT

- Do not cut within 300 feet of perennial streams.
- Do not cut within 100 feet of intermittent or dry streams.
- Do not cut snags of any species over 20" in diameter.
- Do not drive over 300 feet off of designated roads.
- Do not use a motorized vehicle or equipment to skid trees.
- **Do not cut in campgrounds, trailheads, or Forest Service administrative sites.**
- Do not block roads when parking or falling snags.
- Do not cut 5-needle pines.
- Notch all firewood tags and annotate date and quantity cut on permit.

OPENING DATE: Contact Minidoka Ranger District
 CLOSING DATE: November 30

Some roads are closed for the season on September 30 and roads may be closed at any time. Check with the Minidoka Ranger District for seasonal road closures.
