

How to load geospatial PDF's in ESRI's Field Maps

1. Open the GeoPDF in your device's browser.
2. Use the share menu: Share/Send to > Field Maps.
3. The GeoPDF will appear in Field Maps as a side-loaded map.

There is no limit to how many GeoPDFs you can side-load, and **you don't even need to be signed in to view them.**

No account or license is needed to use GeoPDFs in Field Maps. If you get the sign in screen in Field Maps, use the Skip Sign In link below the “Sign in with ArcGIS Online” and “Sign In with ArcGIS Enterprise” buttons.
