

Using the 2026 MVUM Seasonal and Special Designation tables

The Seasonal and Special Designation tables are slightly different on the 2026 MVUM from previous Bitterroot NF MVUMs. The tables now have all the roads and trails split by the route type (ie Roads open to highway legal vehicles only, with Seasonal Designation, Trails open to Wheeled Vehicles 50” or less in width, with Seasonal Designation) Then within that group, the roads and trails are all sorted from smallest to largest Route Number. Where possible, routes were grouped together when they have the same seasonal dates allowed.

So, to find the road or trail you are trying to look up, start by matching your road or trail symbology to the section on the table, then move down the table until you find the route number you are looking for to see the Dates allowed for that route. For example you see road 73878 on the map and it has the symbology for Roads open to highway legal vehicles only, with seasonal designation, so in the table you find the Roads open to highway legal vehicles only, with seasonal designation section of the table you search down through the route numbers until you find 73878 and then move to the right to see the dates in the Dates Allowed column.
