

Forest Service
U.S. DEPARTMENT OF AGRICULTURE

NOTICE

PUBLIC-USE RESTRICTIONS

Due to Extreme Fire Danger Phase C Public-Use Restrictions are in effect as of July 24, 2026 on the Umatilla National Forest:

Campfires, Wood Stoves or Briquette Fires Are Not Allowed. Liquefied and bottle gas stoves and heaters may be used in an area cleared 3-feet of all flammable material.

NO CAMPFIRES!

Use of Chainsaws or other Internal Combustion Engines (other than a motor vehicle) are **not allowed** unless under contract/permit in which case the operator must follow the conditions of the permit. Generators will only be allowed when located in an area that has been cleared at least 10-feet in diameter of all flammable material or when factory installed in a recreational vehicle and the exhaust discharge is located in the center of an area at least 10-feet in diameter cleared of all flammable material.

No off-road/off-trail vehicle travel or travel on roads not cleared of standing grass or other flammable material; no vehicle travel on those Forest Service roads where access has been impeded or blocked by earthen berm, logs, boulders, barrier, barricade or gate, or as otherwise identified in the Closure Order. Vehicles must be parked in an area within 10-feet of the roadway that is barren or cleared of all flammable material.

No Smoking. Smoking is allowed only in enclosed vehicles and buildings or cleared areas.

With tinder dry forest fuels and high daytime temperatures, conditions are prime for potential human-caused forest fires. We ask that you be extremely careful when out on the forest.

For more information on public-use restrictions, contact your local Forest Service office or visit our websites:
