

Protect Your Home

Oregon State Fire Marshal Defensible Space

Defensible space is the key to protecting your home from wildfire. Sign up for a free home assessment by using this link. Either your local fire department or a member of the Oregon State Fire Marshal team will schedule a home visit to make recommendations on what you can do to protect your property.

Fire Resistant Plants

Having defensible space is not about being void of life around your home. It is about having the right plants in the right zones. Want to know which plants and the different zones? You can scan here to learn more.

Firewise USA

A growing number of people are living where wildfires are a real risk. While these fires will continue to happen, there are things you can do to protect your home, neighborhood and your family's safety. The Firewise USA® program is here to help you get started.

USDA is an equal opportunity provider, employer, and lender.

LEVEL 1

BE READY to evacuate.

Be aware of danger in the area and stay informed. Sign up for local emergency alert with your county.

LEVEL 2

BE SET to evacuate.

Time to act! Follow your emergency plan and grab your go-kit of supplies.

LEVEL 3

GO NOW!

Leave without delay. It is dangerous to stay and threatens the safety of you, your family and emergency responders.

Weather and Air Quality

National Weather Service

Weather plays a critical role in fire behavior. In southern Oregon, our summer weather includes high temperatures and low humidity. Stay up to date with local weather and warnings issued by the National Weather Service.

Air Quality and Smoke Map

Southern Oregon often experiences wildfire smoke during the summer. Smoke from wildfires can hurt your eyes, irritate your respiratory system, and worsen heart and lung conditions. Check the air quality index and see advisories.

Alerting

Emergency notifications are issued by the county with direct contact from law and fire officials. You can receive notifications directly for incidents that impact your home by registering your address and contact information. Register for the county you live in.

KNOW YOUR ZONE!

Jackson and Josephine counties are broken into zones to better manage evacuations. Use this and any evacuations in your area, or anywhere in Oregon, California, and Washington.

Emergency Resources

Forest Service

Fires starting in a community can impact our forest just as fires starting in the forest can travel towards our communities. Use this link to stay up to date with closures and regulations in the Rogue River-Siskiyou National Forest.

Southwest ODF

This link will take you to Oregon Department of Forestry for the Jackson and Josephine County area. Get information on current fires, current restriction levels, and other information related to wildfires.

Helpful Apps

Watch Duty

Watch Duty is a free app that gives users real-time information about fire incidents and evacuation notices for active fires on the West Coast. Receive up-to-date information on new and ongoing incidents.

Pulse Point

Many local agencies use Pulse Point to alert registered community members of a cardiac arrest in their location. But it also provides useful information about other types of emergency responses.
