The Rendezvous Trails

The Rendezvous Trail System includes between 35 and 50 kilometers of professionally groomed cross country ski trails. Winding through the Gallatin National Forest, this premier trail system is groomed from early November through late March and often into April. All trails are groomed for classic and skate skiing.

Kids Loop/Purple Haze - 0.9 KM: This section of the trail system is mostly flat and parallels the Approach Trail until they come together before crossing the South Plateau Road. Cutoffs link the two trails at several different points. The kids play hill can be accessed from this trail.

The Rendezvous Loop - 6 KM: This loop is highly recommended for beginner and intermediate skiers. The trail includes several climbs and descents and offers four chances to shorten the loop at cutoff points. The first, Washburn Cutoff, is at 2.2 km; the second, Spender Cutoff, is at 1.4 km; the third, Folsom Cutoff, is at 1.6 km; the fourth, Grizzly, is at 2.2 km. The Rendezvous Loop is a great choice on windy or snowy days as the thick timber offers plenty of protection from the elements.

Interconnecting Loops:

Jerry's Journey - connects Rendezvous Trails to Dead Dog Loop.
Doug's Doodle - connects Windy Ridge to Deja View Loop.

Deja View - 7.3 KM: This trail is best for intermediate and advanced skiers. Deja View also offers access to the tele hill - a favorite play area for locals.

Volunteer - 2.3 KM: This twisting, turning, dynamic trail continuously climbs and drops and boasts spectacular views of Mt. Holmes and the Gallatin Range in Yellowstone National Park.

Dead Dog - 6 KM: Dead Dog starts at the top of Hill 191 on the Rendezvous Loop. This challenging loop takes you through forest and meadow with rewarding views of the Gallatin Range and Yellowstone National Park. Dead Dog rejoins the Rendezvous Loop at intersection 10 at the base of Hill 191.

Windy Ridge - 6.5 KM: Windy is a regional favorite. This trail winds through the timber and includes some challenging climbs, descents and turns. On a clear day, it also offers incredible views of Lionhead and the Madison Range.
