

**1997 Revision of the Land and Resource Management Plan
Arapaho and Roosevelt National Forests
and
Pawnee National Grassland**

October 2015

Amendment No. 11

Forest Plan: Change to Management Area 8.22 (Eldora Ski Area) Goals and Desired Conditions in Boulder Creeks Geographic Area.

Description:

The Goals and Desired Conditions for Management Area 8.22 (Eldora Ski Area) within the Boulder Creeks Geographic Area were written as follows in the 1997 Forest Plan:

Continue authorization of downhill skiing at Eldora Ski Area under their special-use permit and master development plan. Further improvements of the base facilities, infrastructure, and ski runs within the current boundary are expected. There will be no expansion of the area outside of the boundaries currently specified in the Master Development Plan. It is anticipated that actual use levels will increase. There will, however, be no increase in the established maximum daily capacity.

Work and cooperate with the Eldora Mountain Resort to develop a sustainable vegetation management plan for the Eldora Ski Area and to formalize access through the ski area for the Jenny Creek crosscountry ski trail.

The final October 2015 record of decision for Eldora Mountain Resort Ski Area Projects removed two sentences from the management area direction. The amended Goals and Desired Conditions for Management Area 8.22 (Eldora Ski Area) within the Boulder Creeks Geographic Area are as follows:

Continue authorization of downhill skiing at Eldora Ski Area under their special-use permit and master development plan. It is anticipated that actual use levels will increase. There will, however, be no increase in the established maximum daily capacity.

Work and cooperate with the Eldora Mountain Resort to develop a sustainable vegetation management plan for the Eldora Ski Area and to formalize access through the ski area for the Jenny Creek crosscountry ski trail.
