## SHIVERS TRAP TRAIL #10

**GENERAL INFORMATION:** Shivers Trap Trail #10 begins at over 5800' in ponderosa pine and alligator juniper. It descends several hundred feet along its length as pine forest gives way to pinyon-juniper woodland. At lower elevations, the vegetation transitions to chaparral. Be on the lookout for wildflowers during the spring months, including larkspur, sego lilies, and native thistle. This area is home to deer, elk, coyotes, bear, and a variety of bird and reptile species. Fortunate travelers may spot wildlife along the trail.

TR #10 provides a unique view of Granite Mountain, as well as breathtaking panoramas of the Sheridan Mountains, BT Butte, and other prominent landmarks. While there may be some rocky sections that require careful footing, the route to its terminus at FR 665 is pleasant. The return trip, however, is steep and somewhat strenuous.

**CAUTION:** This trail is open to hikers, horseback riders, mountain bicyclists, motorcycles and OHVs. Please be considerate of others—slow down and know when to yield the trail.
