

**Fiscal Year 2020 Landscape Scale Restoration (LSR)
Ranked List of Applications for the Northeast and Midwest**

December 23, 2019

This list of FY 2020 LSR applications are in ranked order based on the interagency LSR Review Team scoring according to the criteria in the Regional Guidance. This list is a preliminary indicator of preference, or order, for funding. The level of funding for LSR has not been determined yet (so we don't know how many applications will be funded). The funding level will also determine the amount for the 15% per State cap, which may also impact the applications funded.
