FOREST PLAN REVIEW WORKSHOPS POSTPONED

Salmon, ID-March 16, 2020

The Salmon-Challis National Forest is postponing all of the forest plan review public workshops originally scheduled in April. We intend to reschedule the workshops and a public announcement will be made when we have new dates.

The purpose of the workshops is to discuss and review the existing 1987 Challis Forest Plan and 1988 Salmon Forest Plan. Prior to the meetings, the Salmon-Challis National Forest will provide a list of plan direction, organized by resource area, and an initial evaluation of whether law, regulation, or policy developed since the late 1980s has influenced plan implementation. We will notify the public when this information is available on the Salmon-Challis National Forest website. This information will be available two weeks ahead of the first rescheduled public workshop.

Forest Supervisor Chuck Mark is using the information from these meetings to help inform whether each plan should be revised, amended, or left unchanged.

For more information, please contact Josh Milligan, 208-756-5560, or joshua.milligan@usda.gov.
