

You are subscribed to Huckleberry Landscape Restoration Project for USDA Forest Service. Summaries for the Draft Record of Decision (ROD) and Final Environmental Impact Statement (FEIS) are now available, objection period anticipated to start January 17, 2020.

Dear Interest Party,

The Council Ranger District, Payette National Forest, is providing a summary of the Selected Alternative identified in the Draft Record of Decision (ROD) for the Huckleberry Landscape Restoration Project. The Forest anticipates having the full document along with the Final Environmental Impact Statement (FEIS) complete by January 17, 2020. A Legal notice in the Newspaper of Record, The Idaho Statesman, should appear on that date along with the publication of the Notice of Availability in the Federal Register.

Please refrain from filing objections until the legal notice has appeared in the Newspaper of Record as that is the sole means for calculating the beginning and end of the 45-day objection period.

**The documents are available on the project webpage at:**

<https://www.fs.usda.gov/project/?project=50218>.

‘Huckleberry Draft ROD Summary’ located in ‘Decision’ tab

‘Huckleberry FEIS Summary’ located in ‘Analysis’ tab under ‘FEIS’
