Notice of Opportunity to Object Pacific Northwest Region Aquatic Restoration Project Region 6, Pacific Northwest Regional Office The Pacific Northwest (PNW) Region has prepared an environmental assessment (EA), draft Decision Notice (DN) and Finding of No Significant Impact (FONSI) for the PNW Aquatic Restoration Project (Project). The draft decision for the Project proposes 1,800 aquatic restoration activities across 16 national forests and the Columbia River Gorge National Scenic Area in Oregon and Washington. These activities are proposed to start in 2019 and would occur over a 15-year period. The activities were derived from 19 activity categories and associated project design criteria listed in the Aquatic Restoration Biological Opinions issued by the National Marine Fisheries Service in 2012 and U.S. Fish and Wildlife Service in 2013. Project activities would occur within focus watersheds and priority subwatersheds, based on the region's Aquatic Restoration Strategy and the National Watershed Condition Framework. The Responsible Official who will issue a decision on this project is Glenn Casamassa, PNW Regional Forester. The revised EA and draft DN/FONSI are available on-line at: <https://www.fs.usda.gov/project/?project=53001>. These documents are also available for review at the PNW Regional Office, 1220 SW Third Avenue, Portland, OR 97204.
