The Dry Beard Draft Decision Notice and Final Environmental Assessment (EA) have been completed. This is a notice for the start of the Pre-Decisional Administrative Review (Objection) period. The Dry Beard Project is proposing commercial thinning, road decommissioning and storage. The planning area covers approximately 10,697 acres near the town of Idanha on the Detroit Ranger District, Willamette National Forest and the Headwaters North Santiam and the Upper North Santiam Watersheds.

The proposed action covers treatments for 1,338 acres and consist of: 1,078 acres of thinning and 260 acres of no harvest skips. This harvest would produce 24 million board feet of timber from managed stands aged 35-78 years old. Post-harvest fuels treatments would include pile and burn on approximately 503 acres and underburning on approximately 419 acres. Transportation related activities would include temporary road construction, road maintenance, road storage and road decommissioning. The Idanha bridge on FS road 10 will be repaired or replaced. The project area occurs within portions T10S, R5E, Sections 11- 15, 21- 27, 35, 36, T10S, R6E, Sections 7, 17- 21, 28-33, Willamette Meridian, Linn County, Oregon.
