Ken updated everyone on the status of the DEIS which is delayed. USFS remains in review status and schedule is uncertain; however, the goal remains to publish on July 12 (delayed from last week's goal of June 28). USFS needs green light by Thursday this week to meet July 12 target. Tetra Tech would need green-lighted version to work on Friday or start of next week, due to holiday.

Overall effect on schedule to be determined after publication date is known.
