

Non-routine Attachments (not sent to Shannon yet)

- #38027 Center for Biological Diversity
 - Attachments: *We request that the Forest Service consider and respond to each one of these op-eds, letters to the editor, or editorials as separate comments and respond to each substantive point raised in each attachment in any subsequently prepared NEPA document.*

Path Forward

- 1) Tetrattech to use same process as with all other attachments (adding text/summary & coding to attachment)
- 2) FS, in a separate process (Outside CARA), put together a spreadsheet to track literature review

- #42010
 - Public meeting recordings transcript in PDF
 - 28 pages of transcript

Path Forward

- 3) As this is none of the form/petition categories, Tetrattech will paste content into textbox and code utilizing the categories under no-further response as appropriate
- 4) Tetrattech will track (in the tracking spreadsheet) how many commenters were involved

- #41883
 - Attached 21 public testimony recordings in PDF
 - Listed as Master Form
 - Form Set includes:
 - #41995

Path Forward

- 1) Tetrattech will remove the form designation and make this unique.
- 2) As this is none of the form/petition categories, Tetrattech will paste content into textbox and code
- 3) Tetrattech will track (in the tracking spreadsheet) how many commenters were involved

- #42028
 - Uploaded postcards
 - Typed up with form letter, handwritten personal info beneath
 - 3 pages

Path Forward

- 1) The pdf shows no handwritten information that needs coded

2) Tetrattech will track how many commenters were involved in the Form Letter Category

Non-routine Attachments (already sent to Shannon)

#38800 (Greenpeace)

- Signatures attachment (PDF): **96,247** Greenpeace supporters have **signed** onto the following statement (general petition):

“Dear Secretary of Agriculture Sonny Perdue

Protect the Tongass National Forest! (Alaska Roadless Rulemaking #54511

The Tongass National Forest is of global importance, and opening it to logging, mining, or oil and gas has permanent, detrimental consequences. This latest attack on wildlife and forests has been made under the guise that this will boost Alaska's economy, when only 1% comes from the logging industry, and isn't worth permanent consequences.

Trump's directive violates the process of the National Environmental Policy Act. NEPA ensures that major decisions affecting the environment are fact-based, consider alternatives, and are made with public opinion in mind. The loss of old-growth forest will intensify the effects of climate change.”

- Unique Comments attachment (PDF):
 - **9,146** Greenpeace supporters submitted **unique personal comments**

Path Forward:

- 1) Tetrattech paste petition text preceded by the statement at the top of the petition “ 96,247 Greenpeace Supporters have signed the following statement:
- 2) Tetrattech will code the petition text
- 3) Tetrattech will keep track of quantity of Form/Form Plus petition and Unique submissions (above)
- 4) Shannon will paste substantive comments in text box
- 5) Tetrattech will code substantive comments

#37971 (Alaska Wilderness League)

○ Excel Sheet:

- Attachment with **2822 unique comments Form Plus** in excel file (all unique)
 - Copy/pasted into Word document: 156 pages
- Excel file also includes about **6000 names without comments**

Path Forward:

- 1) Shannon will add the following text at the bottom of the existing textbox underline/italics: 8,822 names were provided as having signed the above form letter. Of those, 2,822 individuals provided Form Plus input. The substantive comments are below:

- 2) Shannon will load the substantive comments to the text box
- 3) Tetrattech will keep track of quantity of Form/Form Plus submissions (above)

#41814 (National Audubon Society)

o **Excel Sheet:**

- Tab 1: **180 Individual Unique Comments**
 - Another tab with **1156 signatures for same comment**
 - already has a masterform - society pasted this in text field so it marked this entire letter as a **form plus**
- 1) Tetrattech will code the plus portions of this letter
 - 2) Shannon will put the substantive comments in the text box for coding
 - 3) Tetrattech will verify numbers and keep track of the quantities in the different categories (letter gives different quantities)

#37433 (Friends of the Earth)

o 8 Attachments **(PDF):**

- All of the same comment (as far from what we can tell, I went through and skimmed attachments):
 - Total **29,711 same comments**

Path Forward:

- 1) Tetrattech paste master form into the text box
- 2) Tetrattech will code
- 3) Tetrattech will keep track of quantity of Form/Form Plus and Unique submissions (above)

#37931 (Natural Resources Defense Council (NRDC))

o **Excel Sheet:**

- **2510 unique comments (already in the bottom text)**
- **32,286 names with same form**

Path Forward:

- 1) Shannon paste master form and any additional substantive comments into the text box
- 2) Tetrattech will code
- 3) Tetrattech will keep track of quantity of Form/Form Plus and Unique submissions (above)
- 4) After coding and reporting is final, Shannon will post all form plus content to the text box in accordance with agreement with Josue (NRDC)

#41186 (Public Meeting Recording Transcript)

o **160 page attachment (PDF)**

- 4) As this is none of the form/petition categories, Tetrattech will code the content

#41139 (**thumbdrive**)

- o Note from Robin Dale that is written in body of text field:

- Received thumb drive with the attachments to this letter. Attachments are too large to upload. They have been filed in the project record, DEIS Comments folder, and are available upon request.
- Didn't attach anything for this one

Path Forward:

- 1) Shannon will load files to John's One Drive.
- 2) Tetrattech will upload .
- 3) Tetrattech will put text for each attachment in the letter to code (following same process as other attachments)
