Stephi, to help with record keeping... the letters below arrived after the comment period. However, the submitters contacted members of the team explaining the late arrival (mostly relating concerns about system glitches). Because there were only a few, we went ahead and included them. Late arrivals submitted to the email inbox for about a month following the close of the comment period (submitters did not make contact asking for exception) were uploaded to CARA in "Other (Outside Comment DEIS)". At this time, there is no intent to keep uploading emails as they appear to be autogenerated form letters.

It might be good to upload any late arrivals you have in your files to that same comment period just for consistency's sake.
