Dear Jacqueline Buchanan,

The fact that we do not inherit this land from our ancestors; we borrow it from our children is applied to any and all untouched and protected lands. It is all we have left. If you have the ability to keep what is left pristine, then please, do so.

Our and our children's future is not in dirty energy. Do you want to be responsible for more destruction, going backwards and caving in to mega industry?

I beg you, please do the right thing.

"When one tugs at a single thing in nature, he finds it attached to the rest of the world." John Muir

Thank you -
