Dear Ms. Torelli:

The Forest Service received your objection on the Federal Lease Modifications COC-1362 & COC-67232 project, proposed by Forest Supervisor Scott Armentrout on the Grand Mesa, Uncompahgre and Gunnison National Forests.

Project level pre-decisional administrative review regulations at Title 36 of the Code of Federal Regulations, Part 218.8(d)(5) (36 CFR 218.8(d)(5)) require objections to include specific issues related to the proposed project and supporting reasons for the reviewing officer to consider. Your objection does not provide sufficient information to review. On this basis, I am setting aside your objection from review pursuant to 36 CFR 218.10(d)(5).

If you believe I am setting aside your objection in error, or if you have any questions or concerns, please contact Kelly Honors, Administrative Review Coordinator, at khonors@fs.fed.us or 605-673-9207. Thank you for your interest in the management of your public lands.

Sincerely,

MARIBETH GUSTAFSON
Deputy Regional Forester
