Heather Harradine

Notary Public for Idaho

Residing at: Boise, Idaho

My Commission expires: 2/08/2014

LEGAL NOTICE
Legal Notice of Proposed Action
Opportunity to Comment
Lost Creek-Boulder Creek Landscape Restoration Project DEIS

The New Meadows Ranger District, Payette National Forest has prepared a Draft Environmental Impact Statement on the Lost Creek-Boulder Creek Landscape Restoration Project and is seeking comment. The purpose of the project is to move the project area towards desired conditions as defined in the Payette National Forest Land and Resources Management Plan (2003) for vegetation, soil, water, riparian, and aquatic resources; improve recreation opportunities and facilities; and contribute to the economic vitality of the communities adjacent to the Payette National Forest. The proposed action includes approximately 40,000 acres of commercial and non-commercial thinning; approximately 45,000 acres of prescribed burning; watershed improvements including road closures, road decommissioning, and fish passage barrier improvements; and recreation improvements including ATV/UTV trail work and dispersed camping improvements near Lost Valley Reservoir.

The project encompasses approximately 80,000 on the New Meadows Ranger District, and is located approximately 10 miles north and west of New Meadows within the following townships: Township 22 N, Range 1 W Sections 25, 26; T 22 N, R 1 E Sections 30-32; T 21 N, R 1 W Sections 10-15, 21-28, 32-36; T 21 N, R 1 E Sections 4-9, 17-19; T 20 N, R 2 W Sections 13, 24, 25, 35, 36; T 20 N, R 1 W Sections 1-36; T 20 N, R 1 E Section 31; T 19 N, R 2 W Sections 1, 2, 10-15, 22-26, 35, 36; T 19 N, R 1 W Sections 4-9, 17-23, 27-34; T 18 N, R 2 W Sections 1, 2, 12; and T 18 N, R 1 W Sections 3-10, 14-21, 28-29, Boise Meridian.

The Draft EIS is available for review at the New Meadows Ranger District and at the Forest's web site at ww.w.fs.fed.us/nepa/fs-usda-pop.php/?project=33830. Additional information regarding the new objection process or this action (including hard copies or CD's of the DEIS) can be obtained from: Holly Hutchinson, New Meadows District Environmental Coordinator, 3674 Highway 95, New Meadows, ID 83654; by phone at 208-347-0325; or by e-mail at hollyhutchinson@fs.fed.us.

How to Comment and Timeframe

The Environmental Protection Agency published a Notice of Availability (NOA) for the DEIS in the Federal Register on November 1, 2013. Written, facsimile, hand-delivered, and electronic comments concerning this action will be accepted for 45 days following that date. The publication date of the NOA in the Federal Register is the exclusive means for calculating the comment period for a proposed action documented in a draft EIS. Those wishing to comment should not rely upon dates or timeframe information provided by any other source.

Written comments must be submitted to: Keith Lannom, Payette National Forest Supervisor; c/o: Holly Hutchinson, 800 West Lakeside Avenue, McCall, ID 83638. The office business hours for those submitting hand-delivered comments are: 8:00am to 4:30pm Monday through Friday, excluding holidays. Electronic comments must be submitted in a format such as an email message, portable document format (.pdf), plain text (.txt), rich text format (.rtf), and Word (.doc or .docx) to comments-intermt-n-payette@fs.fed.us. Comments can also be submitted by FAX to 208-634-0744. Oral comments must be provided at the Responsible Official's office during normal business hours via telephone (208) 634-0700, TDD/TTY: (202) 720-2600, or in person. Comments must have an identifiable name attached or verification of identity will be required. A scanned signature may serve as verification on electronic comments.

Only those who submit timely and specific written comments regarding the proposed project during a public comment period established by the responsible official are eligible to file an objection.

Objection Process

Scoping for the Lost-Creek Boulder Creek Landscape Restoration Project took place in March, 2013. When the scoping period began, the associated documentation indicated that the upcoming decision would be subject to an administrative appeal process according to the Code of Federal Regulations (36 CFR 215); this process allowed people who submitted comments during the comment period on the draft EIS an opportunity to appeal the final decision after it is signed. However, on March 27, 2013, new regulations were released that will apply to the Lost Creek-Boulder Creek Landscape Restoration Project.

The new regulations, found at 36 CFR 218, provide an opportunity for individuals, organizations and tribal entities to file an objection to a project before the final decision is signed. This allows interested individuals, organizations and tribal entities to advise the responsible official about concerns regarding the final decision before the decision is made.

The new 218 regulations allow anyone who submitted timely, specific written comments about the proposed project during any designated opportunity for public comment, to file an objection to the draft decision (36 CFR 218.5). Therefore, if you have submitted timely, specific written comments on the Lost Creek-Boulder Creek Landscape Restoration Project during the scoping period, the review of the Draft EIS, or during any of the public meetings, you will have standing to object to the draft decision.

When the final EIS and draft Record of Decision are released for public review, those with standing to object will have 45 days in which to review the documents and, if they choose, file an objection to the draft Record of Decision. Specific directions on how to file an objection are provided in 36 CFR 218.8.

Objections will be subject to review by a "reviewing officer," because the Responsible Official for the Lost Creek-Boulder Creek Landscape Restoration Project is the Payette National Forest Supervisor, the reviewing officer will be the Regional Forester.

The objection process includes an opportunity for the objector to meet with the reviewing officer and the responsible official, with the objective of resolving the concerns expressed in the objection. The responsible official cannot sign the final decision until the reviewing officer has responded in writing to all pending objections, and the decision must be consistent with any instructions issued by the reviewing officer. There will be NO opportunity for additional administrative review or appeal of the final decision.

For more information on how the objection process works for projects and activities implementing land and resource management plans and the requirements, you may read the regulations under 36 CFR 218 Subparts A and B on the National Forest Service web site at www.gpo.gov/idsys/pkg/FR-2013-03-27/pdf/2013-06857.pdf.
