

**OPPORTUNITY TO OBJECT TO THE GLACIER LOON FUELS REDUCTION AND FOREST HEALTH PROJECT DRAFT DECISION NOTICE and FINDING OF NO SIGNIFICANT IMPACT**

The Draft Decision Notice (DN) and Finding of No Significant Impact (FONSI) for the Glacier Loon Fuels Reduction and Forest Health Project (Glacier Loon) is now available. The project is located south and west of Condon on the west side of MT Highway 83 to the south end of Lindberg Lake. The Responsible Official for the project is Flathead National Forest Supervisor, Chip Weber.

I have decided to implement Alternative D with modifications as my Selected Alternative. This Decision will reduce fuels and improve forest health on approximately 1397 acres of NFS lands. Treatments will include approximately 1157 acres of fuels reduction in the wildland urban interface (WUI) and 240 acres outside the WUI using a variety of treatment methods. Best management practices will be implemented on approximately 29.3 miles of haul routes and on approximately 5.9 miles of temporary roads that will be constructed. Temporary roads will be reclaimed following their use. Road decommissioning will also occur on an estimated 8.4 miles of roads. In addition, hand planting would occur on approximately 305 acres.

A site specific Amendment to the Flathead Forest Plan to change the Management Area (MA) for a portion of the Glacier Loon Project Area along Lindberg Lake, including the highly visible por-

## LEGALS

tions of the project area from the lakeshore to the slope break totaling approximately 221 acres. The decision would change 213 acres from MA 15, which consists of timberlands where timber management with roads is economical and feasible as currently assigned, to MA 5, which consists of roaded timberlands in areas of high scenic value. The other 8 acres would be changed from MA 15C, timberlands with emphasis on white-tailed deer summer range, to MA 5.

The EA and Draft DN are available on-line at: <http://www.fs.usda.gov/projects/flathead/landmanagement/projects>. These documents are also available for review at the Flathead National Forest Supervisors Office, 850 Wolfpack Way, Kalispell, MT. Additional information can be obtained from Project Leader, Michele Draggoo by calling 406-758-5269, or emailing [mdragoo@fs.fed.us](mailto:mdragoo@fs.fed.us).

The Glacier Loon Project is subject to the objection process pursuant to 36 CFR 218, Subparts A and B. Objections on the Glacier Loon Draft Decision Notice will only be accepted from those who have previously submitted specific written comments regarding the proposed project and the forest plan amendment during scoping or other designated opportunity for public comment in accordance with §218.5(a). Issues raised in objections must be based on previously submitted, timely, specific written comments regarding the proposed project unless based on new information arising after the designated comment opportunities.

Objections, including attachments, must be filed via mail, express delivery, or messenger service: (to Objection Reviewing Officer, USDA Forest Service, Northern Region, P.O. Box 7669, Missoula, MT 59807); FAX to (406) 329-3411; email to [appeals-northern-regional-office@fs.fed.us](mailto:appeals-northern-regional-office@fs.fed.us); or by hand-delivery (Monday through Friday, 8:00 a.m. to 4:30 p.m., excluding holidays at USDA Forest Service, 26 Fort Missoula Road, Missoula, MT 59804). Electronic comments must be submitted in rich text format (.rtf), Word (.doc), or Adobe Acrobat (.pdf).

Objections must be submitted within 45 calendar days following the publication of this notice in the Daily Inter Lake. The publication date in the newspaper of record is the exclusive means for calculating the time to file an objection. Those wishing to object should not rely upon dates or timeframe information provided by any other source. The regulations prohibit extending the time to file an objection.

The objection must contain the minimum content requirements specified in §218.8(d) and §219.54(c) and incorporation of documents by reference is permitted only as provided in §218.8(b) and §219.54(b). It is the objector's responsibility to ensure timely filing of a written objection with the reviewing officer pursuant to §218.9 and §219.56. All objections are available for public inspection during and after the objection process. At a minimum, an objection must include the following (36 CFR 218.8(d)) for the Glacier Loon Project and (36 CFR 219.54(c)) for the forest plan amendment to assign management areas. These include: 1) The objector's name and address, with a telephone number, if available; 2) a signature or other verification of authorship upon request (a scanned signature for email may be filed with the objection); 3) when multiple names are listed on an objection, identification of the lead objector (verification of the identity of the lead objector shall be provided upon request); 4) the name of the proposed project, the name and title of the Responsible Official, and the name(s) of the National Forest(s) and/or Ranger District(s) on which the proposed project will be implemented; 5) a description of those aspects of the proposed project addressed by the objection, including specific issues related to the proposed project if applicable; how the objector believes the environmental analysis or draft decision specifically violates law, regulation, or policy; suggested remedies that would resolve the objection; supporting reasons for the reviewing officer to consider; and 6) a statement that demonstrates connection between prior specific written comments on the particular proposed project or activity and the content of the objection.
