

# Appendix 12

## Requirements for Snags and Downed Wood

---

Appendix 12 of the Supplemental Draft EIS is incorporated by reference, in accordance with 40 CFR 1500.4(j) and (o), 1502.21 and 1506.4. The incorporated material can be found on pages 12-1 through 12-14 in Volume 2 of the Supplemental Draft EIS. The content is briefly summarized below, with changes based on public comment and internal review following the summary.

### Summary

This appendix provides interim guidance for snags and downed wood, as directed in Objective B-O31, and Standards B-S28, B-S29, and B-S30.

Tables 1 through 4 provide interim numbers of large snags and levels of large downed wood (also referred to as coarse woody debris) by fire regime and potential vegetation group, for the project area and for each Resource Advisory Council/Provincial Advisory Committee (RAC/PAC) area. A prototype for refining snag numbers and coarse woody debris levels, along with a list of references are also in the appendix.
