

Index

A

Activity-based management	3-7
Adaptive management	1-2, 3-4, 3-7, 3-9
AUMs	2-4, 4-6
Affected environment	2-1
Alternative S1	3-1
Alternative S2	3-3, 3-6
Alternative S3	3-3, 3-6
Air quality	2-2, 4-2
Anadromous fish	4-6
Aquatic habitat	4-5
Aquatic species	2-3, 3-5, 4-5
Aquatic/riparian management	3-2

B

Biological crusts	2-3, 4-4
-------------------------	----------

C

Chinook salmon	2-3
Communities	4-7

D

Decision space	1-2
Decisions	1-2
Disturbance processes	1-4
Dry grass potential vegetation group	4-4
Dry shrub potential vegetation group	4-4

E

Ecological integrity	1-1, 1-2
Economic and/or social needs	1-1, 1-2, 1-4

Ecosystem health	1-1, 1-2
Environmental consequences	4-1

F

Federal trust responsibility	2-4, 3-6, 4-7
Fire management	3-4
Forestland vegetation management	3-2

G

Gray wolves	2-7, 4-5
Grizzly bears	2-7, 4-5
Guideline	3-8

H

Hydrologic functions	4-1, 4-2
----------------------------	----------

I

Invertebrates	4-4
INFISH	3-2
Integrated management direction	3-4

J

Jobs	4-6, 4-7
------------	----------

L

Landscape dynamics	3-4
Large downed wood	4-2
Lynx	2-7

M

Monitoring	3-4, 3-7, 3-9, 3-13N
Natural areas	2-8
Noxious weeds	2-2, 4-4

O

Objective	3-8
Old forests	3-4, 4-3
Outcome-based management	3-7

P

PACFISH	3-2
Planning issues	1-4
Plants	2-2, 4-4
Ponderosa pine	2-2, 4-3
Population growth	2-4
Products and services	3-5
Project area	1-2
Proposed action	1-1
Purpose and need	1-1

R

Rangeland vegetation management	3-2
RCAs	3-5, 4-5
Restoration	1-4, 3-3
Riparian and hydrologic processes	3-5
Riparian areas	2-3
Roadless areas	1-5
Roads analysis	3-17, 3-18
Roads management	1-6, 3-4, 3-17, 3-18

S

Salmonids	2-3, 4-5
Salmon recovery strategy	1-5
Short-term risks	3-3
Smoke	2-2, 4-2
Snags	4-2
Social and economic needs	3-6
Social-economic-tribal component	3-5
Soil productivity	4-1
Soil disturbance	4-1
Special status terrestrial species	4-5
Steelhead	2-3, 4-5
Step-down	3-4, 3-6, 3-9
Stream-type chinook	4-5
Subbasin review	3-10
Succession/disturbance	4-3

T

T watersheds	3-5, 3-35, 3-41
Terrestrial source habitat	3-5
Terrestrial vertebrates	2-2, 2-5, 4-4

Threatened and endangered species direction 3-9

Timber harvest levels 2-4

Tribal rights and interests 2-4, 3-6

Trust responsibilities 1-4

U

Uncharacteristic insect and disease effects 4-3

Uncharacteristic wildfire 4-3

V

Valid existing rights 1-4

Vegetation composition and structure 4-3

W

Water quality 2-3

Watershed processes 2-2

Western white pine 2-2

Whitebark pine 2-2

Wildfires 1-6, 2-10

Wildlife habitat management 3-2
