## Incident Action Plan

USDA Forest Service  
Tonto National Forest

AZ-TNF-0002511  
P3NF3Q (0312)

August 23 - 24, 2020

Day Shift: 0600 - 2000 Night Shift: 1730 - 0730

Datum WGS 84 DD MM.MMM

*For Maps*

*For COVID-19 Screening*

### \*\*\* COVID-19 Mitigation Actions and Leader's Intent \*\*\*

- ✓ Assigned resources will practice social distancing and be in alignment with the "module of one concept." When interacting outside of the "module of one," face-coverings are required; this includes ICP, established business within the city limits, fireline interactions outside of the "module of one".
- ✓ Without compromising firefighter safety, social distancing should be practiced to the extent possible.
- ✓ All resources should adhere to the closed ICP strategy; please utilize the virtual check-in and demob procedures to reduce potential exposure.
- ✓ Resources working within the San Carlos Apache Reservation shall adhere to the Tribe's COVID-19 Ordinance.
- ✓ Reduce the number of briefing participants to only module leaders or those deemed necessary.

Mark Bernal, Incident Commander

# INCIDENT OBJECTIVES

OPERATIONAL PERIOD (DATE/TIME)

**Day and Night Shifts, August 23, 2020 (0600) – August 24, 2020 (0730)**

GENERAL CONTROL OBJECTIVES

## Leader's Intent

- Commit resources only when there is a reasonable expectation of success in protecting life and critical property and infrastructure. Effectively implement a values-driven strategy utilizing a mix of tactics (direct, indirect, and point-protection) when and where the probability of success is high, and the risk is commensurate with the identified values. Success is defined as safely achieving objectives with the least firefighter exposure necessary including the spread of COVID-19 while enhancing stakeholder support and adhering to the core values of conservation, interdependence, and service.

## Values at Risk

- Incident personnel and the public
- Communities of concern to include Roosevelt, Rock House, Quail Run, Spring Creek Ranch, Wheatfields, Globe, Miami/Claypool, Seven Mile and other communities on the San Carlos Apache Reservation
- Properties and infrastructure to include transmission and utility lines, Chrysolite Mine, Phillips Mine, Regal Mine, Carol Spring Communication Site, ranches and range improvements to include the Griffin Ranch, recreational sites and facilities, ceremonial and historic sites
- Major transportation corridors to include Hwy 188, Hwy 288, U.S. 60/77
- San Carlos Timber resources to include pinelands and commercial harvest areas
- Salt River Canyon Wilderness trails and characteristics
- Archeological and cultural resources and sites
- Sonoran Desert vegetation and ecological communities (minimize the potential spread of noxious weeds)
- Waterways and riparian areas
- Wildlife Resources to include threatened and endangered species habitat to include Mexican spotted owl, narrow headed and northern Mexican garter snakes, and razorback sucker
- Airshed and smoke sensitive areas
- Relationships with cooperators, stakeholders, and the public in impacted areas

## Incident Objectives

- Provide for the safety of incident responders and the public through the application and implementation of sound risk management, to include planning and conducting fire operations.
- Values are communicated and protected from adverse fire and incident management actions.
- Foster and strengthen relationships between incident agencies, partners, cooperators, responders, and communities in impacted areas. Minimize impacts to properties and infrastructure.
- Provide timely and accurate information to the public and media on the fire status and incident activities.
- Engage the host agencies and resource advisors to effectively protect and minimize impacts to identified archeological, historic, natural values
- Effectively manage incident costs through the selection and implementation of strategies and tactics that have a high probability of success in meeting objectives.
- Manage timely, safe, and efficient initial attack within the TFR. Coordinate with local agencies and support initial attack outside the TFR.

## Incident Requirements

- Resources will maintain a "module of one" separation. Masks will be required when meeting in groups outside of your "module of one" and when interacting in close proximity (< than 6') with individuals outside your "module of one."
- Create and maintain a work environment in which people are treated with respect and dignity.
- Coordinate and document planned actions. Document use and intrusions in the wilderness.
- Notify the public in advance when smoke has the potential for a significant impact to smoke sensitive areas.

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 5	<b>TYPE OF FIRE:</b> Wildfire
<b>FIRE NAME:</b> Salt and Griffin Fires	<b>OPERATIONAL PERIOD:</b> DAY Operations, 08/23/2020
<b>DATE ISSUED:</b> 08/22/20	<b>TIME ISSUED:</b> 19:00
<b>UNIT:</b> Tonto National Forest – Globe R.D.	<b>SIGNED:</b> FBAN – Dan Pearson 

### INPUTS

**WEATHER SUMMARY:** T-storm development is more likely today, primarily between 1600-2000.

Temperatures are expected to be a few degrees warmer each day and humidity will be slightly drier, but 20' winds are predicted to be less than the last few days. Impacts from isolated storms will include very gusty outflow winds, possible lightning, and brief heavy downpours.

**Sky Condition:** Mostly sunny   **Temp:** 93-99°   **Humidity (min):** 23-30%   **Chnc of Precip:** 30%   **Haines:** 3 Low  
**Winds:** West winds 5 -10 mph   **Outflow winds from the east likely after 1600**   **LAL:** 1 in the am then 3 in pm

### OUTPUTS

#### FIRE BEHAVIOR

##### GENERAL:

**Summary** – Moderate overnight humidity recovery and the scattered rainfall will minimize fire activity until late morning (1200). Expect the transition to begin in mid-slope grasses around noon before general fire activity picks up in the afternoon. In the mid to late afternoon, watch for cells building over the Mogollon Rim to the northeast because of **outflow winds** which will drastically and quickly increase fire behavior.

**Fuels** – Sonoran Desert/Desert Grasslands – Fully cured heavy grass crop, including invasive grasses have resulted in a continuous available fuel bed allowing fire to sustain growth even in the absence of strong winds or steep terrain.

- Upper shrublands - Expect all fuels to be available with live FM in the mid 50-70% range for Oak and Manzanita. Mesquite and juniper clumps often contain continuous grasses and torch easily contributing embers for, generally short-range, spot fires.

**General fire characteristics** – Conditions represent active fire behavior based on predicted afternoon conditions.

**GRASS Head Fire** – ROS: 25-50 ch/hr; FL 2-4 ft, **Backing/Flanking Fire** ROS – 1-3 ch/hr, FL-1-3 ft

**GRASS-BRUSH Head Fire** – ROS: 15-35 ch/hr; FL 5-8 ft, **Backing/Flanking Fire** ROS – 2-10 ch/hr, FL-2-4 ft

**BRUSH Head Fire** – ROS: 5-20 ch/hr; FL 8-15 ft, **Backing/Flanking Fire** ROS – 1-3 ch/hr, FL-4-8 ft

**CHAPARRAL Head Fire** – ROS: 20-40 ch/hr; FL 5-15 ft, **Backing/Flanking Fire** ROS – 5-9 ch/hr, FL-2-10 ft

##### SPECIFIC:

**Griffin Fire** – Fire activity will be in two distinct areas today. On the northern portion, expect fire to be influenced primarily by the fuels (brush/chaparral) and topography (canyons). Fire will continue backing west towards Sycamore Canyon and continue north in Grapevine Canyon. The major activity in the north is likely to be in Stormy Canyon where fire is expected to move rapidly in the afternoon towards Steer Mountain and Sedal Canyon. When west wind aligns with topography, expect rapid transition from active fire to extreme fire behavior in the chaparral. On the southern portion of the fire, expect continued active fire growth past Sevenmile Mountain into Brushy Basin. Extreme fire behavior is less likely on the southern portion due to the grass and scattered brush fuel type.

**Salt Fire** – Fire growth will continue to flank along Pinto Creek with the greatest growth potential in Granite Basin. Interior unburned island will continue to burn out. Watch for outflow winds which will likely shift wind direction from westerly to northerly or easterly and increase the speed significantly.

##### AIR OPERATIONS:

Hazy conditions in the morning may limit aviation effectiveness, but condition should improve after 1100.

##### SAFETY – Transitions

Watch for changing conditions – slope reversals, fuel type changes, and shifting/increasing winds. These all indicate a high probability in rapidly changing fire behavior. Observe and plan accordingly before engaging.

**Salt-Griffin Fires****Day Shift****08/23/2020**

A similar weather pattern is in place today. Expect storm activity over the Mogollon Rim and the White Mountains to produce gusty outflow winds, however, now it appears that these outflow winds will weaken before reaching the Salt Fire. If outflow winds do make it to the fire, the best time frame would be around 5 and 7 pm and this would cause wind directions to switch to the east-northeast. Storm coverage will be limited today, but appear even better tomorrow, with stronger outflow winds and better coverage of storms possible. Minimum humidities will be in the low 30s today and in the upper 20s tomorrow afternoon. Overnight humidities near 60.

**Salt Fire**

SUNDAY...

Sky/weather.....Mostly sunny. Scattered showers and  
thunderstorms in the afternoon.  
CWR.....0 percent in the morning becoming 25 percent in  
the afternoon.  
Max temperature.....92-99.  
Min humidity.....26-31 pct.  
Wind (20 ft).....West winds 5-10 mph. Outflow winds from the  
east likely after 4 pm. Gusty and erratic winds  
expected near thunderstorms in the afternoon.  
LAL.....1 in the morning becoming 3 after 1500  
Haines.....3

**Griffin Fire**

SUNDAY...

Sky/weather.....Mostly sunny. Chance of showers and  
thunderstorms in the afternoon.  
CWR.....0 percent in the morning becoming 30 percent in  
the afternoon.  
Max temperature.....92-98.  
Min humidity.....22-30 pct.  
Wind (20 ft).....North winds 3 to 6 mph in the morning becoming  
west 5 to 10 mph in the afternoon. Gusty and  
erratic winds expected near thunderstorms in  
the afternoon. 40 percent chance of gusty  
easterly outflow winds after 3 pm.  
LAL.....1 in the morning becoming 3 after 1500  
Haines.....3

## 7. CONTROL OPERATIONS:

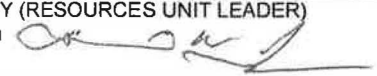

Task: Check fire spread to the West and South with direct and indirect tactics.  
Purpose: Protect the communities to the West, Mine infrastructure to the South and Power infrastructure throughout.  
End State: Fire is kept East of Pinal Creek, North of Mining operations and threat to Values are minimized or eliminated.

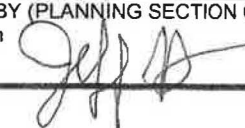

## 8. SPECIAL INSTRUCTIONS:

- Ensure LCES, Test Communications and utilize human repeaters and Air Attack if needed.
- Contact OPS prior to initiating any firing activity.
- San Carlos Apache Reservation is Tribal Land. The land is significantly special to the Tribe to be treated with respect for all natural resources. All resources such as, antlers, plants and minerals, cannot be removed and must remain on in place on the land.
- Any personnel working on San Carlos Tribal Lands are required to complete a COVID screening. See COVID officer after briefing daily.

# SAFETY MESSAGE

*Fire fighter safety comes first on every fire, every time*

We are **ALL** accountable for **SAFE** behaviors!  
For Day/Night Operations: **August 23-24, 2020**

INCIDENT: Salt/Griffin

Date Prepared: August 22, 2020 TIME: 1400

## Major Hazards and Risks:

- **Medivac Procedures:** Take the time to review the Medical Plan/Medical Incident Report and know exactly how to proceed before an injury occurs. Know your location and where the closest landing zone is located.
- **Driving/Roads:** Use caution on all roads. Blind corners, dust, smoke and sun may contribute to poor visibility.
- **Fire Weather:** Watch for changing conditions associated with high temperatures and strong, shifty winds from thunder storms.

*"Whatever you are, be a good one." --Abraham Lincoln*

**DANGER**

**ABANDONED  
MINES ARE DEADLY.  
DON'T GET TRAPPED.  
Stay Out! Stay Alive!**

SmartSign.com • 800-952-1457 • S-8809

## How People Die from Mine Shafts

- Falling into deep shafts
- Rock slide at shaft openings
- Collapsing ladders in shafts
- Cave-ins from decayed timber
- Cave-ins from loose rock
- Bad air & poisonous gas
- Discarded explosives
- Poisonous snakes

*Thanks from your SAFETY TEAM!*

## Mining Hazmat Encounters

Encountering hazardous materials (hazmat) in the field requires special precautions. Some hazardous materials you may encounter in mining areas include: Bulk fuels, explosives, flammables, acids, alkalis, corrosives, poisons and radioactive materials. Emergency responses include:

### Flammable Gases

- Isolate for ½ mile in all direction
- Keep unauthorized personnel away
- Stay upwind, keep out of low areas
- Always stay away from tanks engulfed in flames

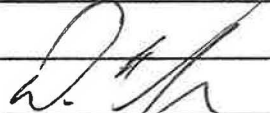

### Radioactive Materials

- Some may burn, but don't ignite readily
- Nitrates and oxidizers may ignite other combustibles
- Don't move damaged packages
- Stay upwind
- Low radiation hazard, when material is in a container

### Corrosives

- Inhalation, ingestion or contact with dust, vapors or substance may cause severe injury, burns or death
- Fire will produce irritating, corrosive and/or toxic gases
- Reaction with water may generate heat and increase fumes in the air
- Containers that come in contact with heat or water, may explode
- May ignite combustibles
- Will react with water, releasing dangerous gases

*Prepared by: Don Muise SOF2/Gary Strickland SOF2-T*

**SOUTHWEST  
INCIDENT MANAGEMENT  
TEAM 5**  
MARK BERNAL, INCIDENT COMMANDER

---

**To:** All Incident Personnel for the Salt and Griffin Fires

**From:** Mark Bernal, Incident Commander

**Subject:** Ethical Behavior and Conduct

Southwest Area Incident Management Team 5 is committed to the highest principles of ethical behavior and conduct. This team fully adheres to the laws and policies regarding discrimination, harassment, hazing, and other inappropriate behavior, including drugs and alcohol use.

I expect all personnel assigned to this incident to carry themselves with the utmost level of honesty, integrity, and professionalism. Fostering and investing in relationships is important; be mindful of your interactions with the public, including posting incident-related information on social media (videos, photos, texts, etc.).

I would like to acknowledge each of you who have answered the call to public service and come to this fire. Your willingness to step away from your families during such complex times and issues to humanity do not go unnoticed. It is difficult not to have a degree of feeling about COVID-19, social distancing, unfair treatment of our fellow citizens, and now fire. I call on each of you to heighten your mindfulness to stress management, mutual respect, and safety-first behavior.

I am committed to the belief that everyone is entitled to a safe and harassment-free work environment throughout the entire duration of the assignment. Equally, our behaviors must reflect a safety-first attitude.

Your actions reflect upon all of us.

Sincerely,

*Mark Bernal*

---

Mark Bernal  
Incident Commander  
Southwest Interagency Management Team 5

## HUMAN RESOURCES MESSAGE

### Mutual Respect

It is the responsibility of everyone on the Incident to treat everyone with whom you have contact, with respect and consideration. We all expect and have the right to be treated with dignity.

Working in emergency incident situations is no simple task. Easily we can offend someone by a careless slip of the tongue, pen, or through inappropriate behavior. With increased diversity there comes a need for increased sensitivity about how we interact with one another. When we become more sensitive in our dealings with one another, it results in increased rapport with those whom we work, and contributes to a positive and productive work environment.

We all know how important it is to treat each other appropriately and with respect. Let's make sure we are all serving as examples for each other so we don't fall in the quicksand.

Human Resource Specialist:  
DAVID LEGRAND 505.218.1189

A sundial has the fewest moving parts of any time-piece. Which has the most?

## Finance Procedures

Finance will be taking documents electronically. Upon request, Finance can provide electronic, fillable pdf, forms of CTRs and shift tickets. Finance will also accept pictures of CTRs and shift tickets. Please make sure all CTRs and Shift Tickets are **signed by your incident supervisor** before submitting electronically.

**Contractor and Cooperators:** Finance will also accept contracts and agreements electronically.

**ADs:** Please be sure to submit your Causal hire and Resource Order forms electronically to Finance as well. It is important we have those forms before we can start inputting your time.

Please make sure **ALL** documentation includes your name and resource order number.

All documents and pictures should be emailed to: [2020.salt.finance@firenet.gov](mailto:2020.salt.finance@firenet.gov)

Thank you,

Team 5 Finance

# MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

Use the following items to communicate situation to communications/dispatch.

1. **CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)** Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. **INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented. <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes. <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> Ex: Sprains, strains, minor heat-related illness.	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Patient Care		Name of Care Provider (Ex: EMT Smith)

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GROUND					
TACTICAL					

**7. CONTINGENCY: Considerations:** If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, etc.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
