

# BUREAU OF LAND MANAGEMENT

## Corrected 2007 and 2012 NASS Census Per-Acre Land and Building (L/B) Values and Rent Schedule Zones

---

### For Use with the 2016 through 2025 Linear Rent Schedule

Attached is a list of counties (*and other geographical areas*) with their respective 2007 and 2012 assigned per-acre zone value based on NASS Census data. All L/B values shown have been reduced by 20 percent to represent the total value of all irrigated acres, plus acres in the “other” category (which includes buildings, roads, ponds, and wasteland) to total farm real-estate value. The 2022 NASS Census is expected to be available early in calendar year 2024. The 2022 NASS Census data will be used to assign counties to the appropriate per-acre zone value for calendar years 2026 through 2030. This data may also be used to revise the number, as well as the value of zone brackets, on the rent schedule for 2026 through 2030.
