(Provide a description of your project/purpose.)

II. GOOD NEIGHBOR AUTHORITY OBJECTIVES:

The Forest Service is a land management agency dedicated to the stewardship and management of National Forest System (NFS) lands, including the responsibility for maintaining and improving resource conditions. This Good Neighbor Agreement provides an opportunity for the parties to carry out “authorized forest, rangeland, and watershed restoration services”. All Forest Service functional areas may utilize this Agreement with the condition that the activities must be an authorized forest, rangeland, and watershed restoration service. The Forest Service Program Manager and Budget Official must ensure that funding used is appropriate for the work performed.

Authorized forest, rangeland, and watershed restoration services include activities to treat insect and disease infected trees; activities to reduce hazardous fuels; and any other activities to restore or improve forest, rangeland, and watershed health, including fish, and wildlife habitat.

The reconstruction, repair, or restoration of an NFS system road that is necessary to carry out authorized restoration services is authorized. Any such roads reconstructed, repaired or restored that were previously identified as not needed according to 36 CFR 212.5(b)(2) must be decommissioned according to the travel management plan no later than 3 years after completion

Any decision required to be made under NEPA with respect to any authorized restoration services to be provided under this Good Neighbor Authority shall not be delegated.

All projects proposed for completion under this Agreement will undergo a collaborative process. The collaborative process will ensure that both parties understand the goals and objectives of the agreed upon restoration services and all necessary rules, regulations, and policies as outlined in this Agreement.

III. THE FOREST SERVICE SHALL:

- A. Perform in accordance with the attached Scope of Work and Financial Plan, Appendix A and B, and the Timber Removal Plan, Appendix D, if attached.

The award obligation will not increase as a result of indirect cost rate increases. Updates to NICRAs will not affect the total funds available for this award unless documented in a formally executed modification.

(3) If the NICRA is for a provisional rate, the Cooperator shall be reimbursed at the established provisional rate(s), subject to appropriate adjustment when the final rate(s) for the fiscal year are established.

(4) Failure to provide a revised provisional or final NICRA could result in disallowed costs and repayment to the Forest Service.

- J. ELECTION OF DE MINIMIS INDIRECT RATE. The Cooperator has elected to use the *de minimis* indirect cost rate of 10% of modified total direct costs (MTDC) as allowed under 2 CFR 200.414 (f). This rate must be used consistently for all Federal awards until such time as the Cooperator chooses to negotiate for a rate, which they may apply to do at any time. If a new rate is negotiated and utilized the *de minimis* rate can no longer be utilized.

- F. REVENUE. Revenue received by a State from the sale of Federal timber shall be held, expended, and accounted for by the State in accordance with the Good Neighbor Authority. Revenue shall be expended for mutually agreed upon authorized restoration work under a Good Neighbor agreement on National Forest System lands. The State may assess their indirect administrative costs approved under the Good Neighbor Agreement as an indirect rate against the revenue as it is expended, following the terms of their NICRA or alternatively they may use the de minimis rate of 10% if they do not have a NICRA (See 2 CFR 200.414).

Except as provided below, the State may not offer, nor may the Forest Service request, the return of any revenue as the State is responsible for performance of the revenue-funded restoration work under this Good Neighbor agreement. Should the State elect to have the

Forest Service perform the essential reforestation (KV work), Brush Disposal, or required Road Maintenance they may enter into a separate Collection Agreement under the authority of the Cooperative Funds Act of June 30, 1914, 16 USC 498 as amended by PL 104-127.

The authority to enter into new agreements that generate revenue or transfer revenue from one Good Neighbor agreement to another expires October 1, 2023.

Example: Goal-50 miles of trail maintenance; Actual-25 miles of trail work completed near mile marker 0.7. $25 \text{ miles} \times \$422/\text{mile} = \$10,500$

- If established goals were not met, the report shall include (1) the reason for the delay, (2) a detailed explanation of why the goal was not achieved and identify any factors that may have contributed to the delay, and (3) a plan of action for addressing the issue and getting the project back on track. The plan should outline the specific steps that will be taken to address the issues and a timeline for implementing these steps. This information will enable the Forest Service to understand the reasons for the delay to determine if an agreement modification is warranted. *Example: Due to severe weather conditions, the crew was unable to reach certain areas impacted by landslides. The schedule has been modified to have a 5-person crew onsite starting in May 2023 to complete the remaining 25 miles of trails when optimal weather conditions are expected.*

- The report shall also include any additional pertinent information relevant to the project.

For each ALN/CFDA, the performance report must include all relevant project work completed and/or invoiced for the reporting period then submitted to the Forest Service

Program Contact. The quarterly performance report for each respective ALN/CFDA is due no later than 30 days after the reporting period ending March 31, June 30, September 30, December 31. For CFDA # __. __, a [QUARTERLY] progress report is required.

Additionally, the data must meet specific standards specified elsewhere to ensure the data is useful to support the USDA’s mission. The recipient/cooperator agrees to comply with USDA’s Department-wide enterprise geospatial data management policy implemented in [Departmental Regulation 3465-001](#) which establishes the USDA policy for defining the strategic direction necessary to optimize the management of the USDA geospatial data and geospatial infrastructure, including all geospatial data created for, by, and enhanced by USDA.

- X. SCIENTIFIC INTEGRITY. USDA is committed to the highest levels of integrity in all of our scientific activities and decision making. This includes to performing, recording, and reporting the results of scientific activities with honesty, objectivity, and transparency. All persons performing under this agreement shall adhere to the principles of scientific integrity described in [Departmental Regulation \(DR\) 1074-001](#).
- Y. PUBLIC ACCESS TO SCHOLARLY PUBLICATIONS AND DIGITAL SCIENTIFIC RESEARCH DATA. The recipient agrees to comply with USDA's Department-wide [public access policy](#) implemented in [Departmental Regulation 1020-006](#) which establishes the USDA policy for public access to scholarly publications and digital scientific research data assets. The USDA will make all peer-reviewed, scholarly publications and digital scientific research data assets arising from unclassified scientific research supported wholly or in part by the USDA accessible to the public, to the extent practicable.
- Z. BUY AMERICA BUILD AMERICA. Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this award may be used for an infrastructure project unless:

(1) All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

(2) All manufactured products used in the project are produced in the United States— this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product; and

(3) All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States. The construction material standards are listed below.

Incorporation into an infrastructure project. The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to

equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

Categorization of articles, materials, and supplies. An article, material, or supply should only be classified into one of the following categories: (i) Iron or steel products; (ii) Manufactured products; (iii) Construction materials; or (iv) Section 70917(c) materials. An article, material, or supply should not be considered to fall into multiple categories. In some cases, an article, material, or supply may not fall under any of the categories listed in this paragraph. The classification of an article, material, or supply as falling into one of the categories listed in this paragraph must be made based on its status at the time it is brought to the work site for incorporation into an infrastructure project. In general, the work site is the location of the infrastructure project at which the iron, steel, manufactured products, and construction materials will be incorporated.

Application of the Buy America Preference by category. An article, material, or supply incorporated into an infrastructure project must meet the Buy America Preference for only the single category in which it is classified.

Determining the cost of components for manufactured products. In determining whether the cost of components for manufactured products is greater than 55 percent of the total cost of all components, use the following instructions:

- (a) For components purchased by the manufacturer, the acquisition cost, including transportation costs to the place of incorporation into the manufactured product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (b) For components manufactured by the manufacturer, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (a), plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the manufactured product.

Construction material standards. The Buy America Preference applies to the following construction materials incorporated into infrastructure projects. Each construction material is followed by a standard for the material to be considered “produced in the United States.” Except as specifically provided, only a single standard should be applied to a single construction material.

- (1) Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.

(2) Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.

(3) Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.

(4) Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.

(5) Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.

(6) Lumber. All manufacturing processes, from initial debarking through treatment and planning, occurred in the United States.

(7) Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.

(8) Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

Waivers. When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. The agency should notify the recipient for information on the process for requesting a waiver from these requirements.

When the Federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the Buy America Preference in any case in which the agency determines that:

(1) applying the Buy America Preference would be inconsistent with the public interest;

(2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or

(3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the Buy America Preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office.

There may be instances where an award qualifies, in whole or in part, for an existing waiver described at [USDA Buy America Waivers for Federal Financial Assistance | USDA](#).

Definitions

“Buy America Preference” means the “domestic content procurement preference” set forth in section 70914 of the Build America, Buy America Act, which requires the head of each Federal agency to ensure that none of the funds made available for a Federal award for an infrastructure project may be obligated unless all of the iron, steel, manufactured products, and construction materials incorporated into the project are produced in the United States.

“Construction materials” means articles, materials, or supplies that consist of only one of the items listed in paragraph (1) of this definition, except as provided in paragraph (2) of this definition. To the extent one of the items listed in paragraph (1) contains as inputs other items listed in paragraph (1), it is nonetheless a construction material.

(1) The listed items are:

- (i) Non-ferrous metals;
- (ii) Plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- (iii) Glass (including optic glass);
- (iv) Fiber optic cable (including drop cable);
- (v) Optical fiber;
- (vi) Lumber;
- (vii) Engineered wood; and

(viii) Drywall.

(2) Minor additions of articles, materials, supplies, or binding agents to a construction material do not change the categorization of the construction material.

“Infrastructure” means public infrastructure projects in the United States, which includes, at a minimum, the structures, facilities, and equipment for roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property; and structures, facilities, and equipment that generate, transport, and distribute energy including electric vehicle (EV) charging.

“Infrastructure project” means any activity related to the construction, alteration, maintenance, or repair of infrastructure in the United States regardless of whether infrastructure is the primary purpose of the project. See also paragraphs (c) and (d) of 2 CFR 184.4.

“Iron or steel products” means articles, materials, or supplies that consist wholly or predominantly of iron or steel or a combination of both.

“Manufactured products” means:

(1) Articles, materials, or supplies that have been:

- (i) Processed into a specific form and shape; or
- (ii) Combined with other articles, materials, or supplies to create a product with different properties than the individual articles, materials, or supplies.

(2) If an item is classified as an iron or steel product, a construction material, or a Section 70917(c) material under 2 CFR 184.4(e) and the definitions set forth in 2 CFR 184.3, then it is not a manufactured product. However, an article, material, or supply classified as a manufactured product under 2 CFR 184.4(e) and paragraph (1) of this definition may include components that are construction materials, iron or steel products, or Section 70917(c) materials.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components.

“Section 70917(c) materials” means cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives. See Section

70917(c) of the Build America, Buy America Act.

AA. GOVERNMENT-FURNISHED PROPERTY. The Cooperator may use Forest Service property furnished under this Agreement only for performing tasks assigned in this Agreement. The Cooperator shall not modify, cannibalize, or make alterations to Forest Service property. A separate document, Form AD-107, must be completed to document the loan of Forest Service property. The Forest Service shall retain title to all Forest Service-furnished property. Title to Forest Service property must not be affected by its incorporation into or attachment to any property not owned by the Forest Service, nor must the property become a fixture or lose its identity as personal property by being attached to any real property.

Partner Liability for Government Property.

1. Unless otherwise provided for in the Agreement, the Cooperator shall not be liable for loss, damage, destruction, or theft to the Government property furnished or acquired under this agreement, except to the extent of State law when any one of the following applies—
 - a. The risk is covered by insurance or the Cooperator is otherwise reimbursed (to the extent of such insurance or reimbursement).
 - b. The loss, damage, destruction, or theft is the result of willful misconduct or lack of good faith on the part of the Cooperator's managerial personnel. The Cooperator's managerial personnel, in this clause, means the Cooperator's directors, officers, managers, superintendents, or equivalent representatives who have supervision or direction of all or substantially all of the Cooperator's business; all or substantially all of the Cooperator's operation at any one plant or separate location; or a separate and complete major industrial operation.
2. The Cooperator shall take all reasonable actions necessary to protect the Government property from further loss, damage, destruction, or theft. The Cooperator shall separate the damaged and undamaged Government property, place all the affected Government property in the best possible order, and take such other action as the Property Administrator directs.
3. The Cooperator shall do nothing to prejudice the Government's rights to recover against third parties for any loss, damage, destruction, or theft of Government property.
4. Upon the request of the G&A Specialist, the Cooperator shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation, including the prosecution of suit and the execution of Agreements of assignment in favor of the Government in obtaining recovery.

BB. TERMINATION BY MUTUAL AGREEMENT. This Agreement may be terminated, in whole or part, as follows:

- When the Forest Service and the Cooperator agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be

terminated.

- By 30 days written notification by either party, setting forth the reasons for termination, effective date, and in the case of partial termination, the portion to be terminated. If the Forest Service decides that the remaining portion of the Agreement must not accomplish the purpose for which the Agreement was made, the Forest Service may terminate the agreement upon 30 days written notice in its entirety.

Upon termination of an Agreement, the Cooperator shall not incur any new obligations for the terminated portion of the Agreement after the effective date, and shall cancel as many outstanding obligations as possible. The Forest Service shall allow full credit to the Cooperator for the Forest Service share of obligations that cannot be canceled and were properly incurred by the Cooperator up to the effective date of the termination. Excess funds shall be refunded within 60 days after the effective date of termination.

CC. DISPUTES.

1. Any dispute under this agreement must be decided by the Forest Service Signatory Official. The Signatory Official shall furnish the Cooperator a written copy of the decision.
2. Decisions of the Forest Service Signatory Official shall be final unless, within 30 days of receipt of the decision of the Signatory Official, the Cooperator appeals the decision to Forest Service's Director, Acquisition Management (AQM). Any appeal made under this provision shall be in writing and addressed to the Director, AQM, USDA, Forest Service, Washington, DC 20024. A copy of the appeal shall be concurrently furnished to the Cooperator.
3. In order to facilitate review on the record by the Director, AQM, the Cooperator shall be given an opportunity to submit written evidence in support of its appeal. No hearing will be provided.
4. A decision under this provision by the Director, AQM is final.
5. The final decision by the Director, AQM does not preclude the Cooperator from pursuing remedies available under the law.

DD. DEBARMENT AND SUSPENSION. The Cooperator shall immediately inform the Forest Service if they or any of their principals are presently excluded, debarred, or suspended from entering into covered transactions with the federal government according to the terms of 2 CFR Part 180. Additionally, should the Cooperator or any of their principals receive a transmittal letter or other official federal notice of debarment or suspension, then they shall notify the Forest Service without undue delay. This applies whether the exclusion, debarment, or suspension is voluntary or involuntary. The Cooperator shall adhere to 2 CFR Part 180 Subpart C in regards to review of sub-Cooperators or contracts for debarment and suspension.

All subrecipients and contractors must complete the form AD-1048, Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion, Lower Tier Covered Transactions. Blank forms are available electronically. Completed forms must be kept on file with the primary Cooperator.

- EE. AGREEMENT CLOSEOUT. Within 90 days after expiration or notice of termination the parties shall close out the agreement.

Any unobligated balance of cash advanced to the Cooperator or any unspent program income must be immediately refunded to the Forest Service, including any interest earned in accordance with 2 CFR 200.345.

Within a maximum of 90 days following the date of expiration or termination of this Agreement, all financial performance and related reports required by the terms of the agreement must be submitted to the Forest Service by the Cooperator.

If this agreement is closed out without audit, the Forest Service reserves the right to disallow and recover an appropriate amount after fully considering any recommended disallowances resulting from an audit which may be conducted later.
