JUL 18 2017

The Honorable Ken Calvert
Chairman
Subcommittee on Interior, Environment,
and Related Agencies
Committee on Appropriations
U.S. House of Representatives
2007 Rayburn House Office Building
Washington, D.C. 20515

Dear Mr. Chairman:

This letter outlines the U.S. Department of Agriculture's Forest Service estimate of anticipated wildland fire suppression costs for fiscal year (FY) 2017, as required in the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010 (Public Law 111-88), as a part of the Title V—FLAME Act of 2009.

This estimate is pursuant to Section 502(h)(3) of the Act, which requires the Secretary of Agriculture to submit an estimate of the anticipated wildfire suppression costs quarterly, in March, May, July, and September. This report serves as both the March and May submission.

This forecast predicts, with 90 percent confidence, that fire suppression costs will be between \$746 million and \$1.876 billion in FY 2017, with a median forecast of \$1.311 billion. These estimates are based on the best climate and weather data currently available as well as the most effective analytical tools and models used to estimate fire suppression costs. This forecast has been updated since March and reflects an increase in the median projection from \$1.134 billion to \$1.311 billion. The accuracy of the forecast increases over the course of the FY as data inputs improve with the incorporation of year-to-date weather data and the most recent climate modeling outputs.

In compliance with Section 435 of Public Law 111-88, this information will be posted to <http://www.fs.fed.us/aboutus/budget/congressional-directives.shtml> after 45 days. If you have any further questions, please have a member of your staff contact the Office of Congressional Relations at (202) 720-7095. A similar letter is being sent to Ranking Member Betty McCollum.

Sincerely,

A handwritten signature in blue ink, reading "Sonny Perdue", is positioned above the printed name and title.
